CITY COUNCIL

PUBLIC COMMENT

From: Jennifer Jenkins
To: Elaine McCloskey
Subject: RE: Public comment
Date: Tuesday, January 25, 2022 5:03:53 PM

Caution! This message was sent from outside your organization.

Hi Elaine,

I had some technical and family illness related issues last night and was unfortunately unable to provide comment. I was able to finish watching the meeting today and do have additional comments. Can you please forward these comments to council while it's fresh on their minds and include for public comment for the next meeting?

Thanks,

Jennifer Jenkins

Dear Council,

I have some additional comments after viewing last night's meeting. Thank you for your time and consideration.

1. The lot lines and setbacks need to match the existing lot lines and setbacks, specifically the 10 lots that back up to Rutherford Ave. As it is shown, my back yard balances 2 lots. There are 10 proposed lots and 10 existing, please match them up.

2. Mr. Friedman mentioned building 6000 sq. ft. single family homes. There is no way that can fit in a 2 story home with reasonable setbacks. The setbacks should match existing setbacks. There is no need to include a minimum size house. The setback will define the house size. This is important to help regulate the impervious area in this sensitive area.

3. I support staffs comment to remove the 5 lots from the city park area and to remove the retention ponds from the forested area. This will provide a better park area, preserve more trees in the Tier 2 forested area, and provide park access to an area that doesn't currently have any parks.

4. I recommend switching the 1 ac. playground area with the nearby 1 acre retention pond area. This will save trees and play areas do not need to be cleared. As a proponent of outdoor free play for young children I have driven past way more "typical playgrounds" to take children to county preservation parks. I can attest that this is something that is much needed in our community. Check out www.freeforestschool.org for the importance of this type of play and I suggest Addison consult with www. urbanwilddesign.com for ideas on how to make this work. Also, I know of 2 children close to this location that use wheelchairs. It would be great to incorporate some accessible features into this area.

5. The city should examine moving the main north-south road to the west (like the Wickham

plan) out of the wooded area and reduce stream crossings. The road could connect to Rutherford and Birchard through Rutherford Acres Development. This would reduce the total length of roadway, and impervious area, and save trees. Consider 1 main intersection to Pennsylvania (either Executive or Heritage) where ultimately a traffic signal will be required. The current closely spaced intersections create unnecessary conflict points. (Left turners from Heritage have to cross right turners from Executive.)

6. Remove the bed and breakfast conditional use from the single family homes. Why is that needed?

7. Explore more opportunities to preserve more trees. Grants, cooporate sponsors, private donations. The city should make this a priority prior to rezoning from A-1.

8. Subarea B referenced 2-3 story townhomes. Mr. Friedman stated they will be 3 stories. This increased density should eliminate dwelling units elsewhere in the development.

9. What are the tree preservation goals for the unplanned areas? If the developer can't meet required goals they should make up for it in the residential areas.

10. What is the city's tree preservation/removal plan. These trees need to be accounted for. City infrastructure should be planned to reduce environmental impacts.

11. The city adopted Resolution 11-64 supporting the Olentangy Balanced Growth Plan. The goal of the Olentangy Watershed Balanced Growth Plan is to protect, preserve, restore, and enhance the Olentangy River, its tributary system and areas that serve natural functions by encouraging conservation, development and agriculture in appropriate areas while recognizing the importance of the Watershed as an asset and respecting the uniqueness of our communities. Please keep this in mind.

12. Consider aligning developer tree preservation goals with the Tiers from the Greenspace plan.
Tier 1 =100% preservation
Tier 2=90%
Tier 3=80%
Tier 4=70%
Tier 5=60%
Minimum 50% in all other areas.

13. This location has not been identified as a focus area for development in Delaware Together.

14. What category wetlands are being impacted? Where is wetland R? It's listed, but not shown on the plan. I would like to hear the developer go through the environmental impacts and remediation plan at the next meeting. Where can I get a copy of the preliminary determination packet?

15. One advantage of PMUs is additional buffer areas. The tree preservation zone proposed is 15' this is less than what was approved with the straight zoned Park View development 20'. Please increase the tree preservation zones on the single family lots. There are not any available wooded lots on the market in the City of Delaware. The developer should take

advantage of this unique property and plan larger tree preservation lots. Look at Beech Ct. And the lots on the south side of the Stratford Woods development.

Thank you for your time and consideration.

Hi Elaine,

I won't be able to attend tonight's meeting. I will try to call in if possible.

Thanks,

Jennifer

Dear Council,

Thank you for your time and consideration.

The Community currently has concerns with how tree preservation is being applied to PMUs. A PMU is a powerful negotiation tool which needs to be applied carefully. The City uses PMUs to require developers to build planned infrastructure, such as roads, multi-use paths, and sewer lines, and in exchange one of the benefits to the developer is they get to propose their own development text instead of following the typical rules. In this case, the developer is proposing that they remove over half of the trees on their property and not pay into the tree fund (which can only be used for trees). This does not follow the spirit of Delaware's no net loss tree preservation policy. Our city's tree canopy is rapidly depleting as development increases. We cannot continue to let developers destroy part of what makes Delaware so special. The developer just purchased this property for $6M and wants to turn it into a $300M development. If the city can require the developer provide $40M worth of infrastructure, surely you can require them to work around the existing trees.

Time and time again the community approves preservation park levies and votes down infrastructure levies because natural resources are a high priority to our Community and accommodating rampant growth is not. We cannot allow the city to use our trees as a negotiation tool to build infrastructure.

Please stand up for our Community values and reject the developers tree preservation proposal.

Respectfully,

Jennifer Jenkins

Subject: Re: Addison Public Comments - Sidewalks For Public Comment 2/14
Date: Thursday, January 27, 2022 11:29:32 AM

Caution! This message was sent from outside your organization.

Mr. Ferrigno,

Thank you for your reply.

Safety does not require a petition or a vote. This is the responsibility of the city to protect the residents.

The issue now, is that if a stub road is opened then sidewalks are required for the safety of our children & residents.

The building of Speedway required sidewalks for safety along Hillsmiller. The 3 Son's apartments last year had trees removed, and a sidewalk was installed with a handicapped crossing at Oakhurst Drive & a flashing crosswalk for the safety of residents across Hillsmiller with no vote or petition required. (this solution was requested by me in a Council Meeting)

Who paid for the sidewalks, ramp, & flashing light crosswalk on Oakhurst & Hillsmiller last year ?

In the past, we asked for uniformity for Oakhurst Development with the new addition in 2001. There was no protest against sidewalks but a request for uniformity & consistency in the neighborhood design. There was no vote taken & residents did not have any input about sidewalks. The city required new developments to have sidewalks even though our side walks end up in bushes & trees & go nowhere. Our focus was that the sidewalks did not link the neighborhood and terminated dangerously.

This city requirement was a good idea then and now. Also on record, it was noted that any lot left undeveloped in the new subdivision would require a sidewalk. (the owner of the lot would be required to install a sidewalk when the last house was built if they choose to leave their lot vacant) The sidewalk would be the responsibility of the owners and 2 lots were left out of code for 19 years and one remains with no sidewalk today. The code has not been enforced. The vacant lot on Alice is now the bus stop. Our neighborhood children load & unload in the street, crossing with no crosswalk to the other lot with a sidewalk.

In 2001 the entire neighborhood needed sidewalks to comply with the new city code. With the opening of the stub roads, this change will definitely require sidewalks for the entire neighborhood for safety with no petition required. This is the city or the developers responsibility for safety.

A possible compromise is to designate Hope lane as a designated entrance & exit for only EMS & snow removal with appropriate signage. This could be one solution and Oakhurst would remain undisturbed.

Respectfully submitted,

Dr. John & Commissioner Susan McGrail

Subject: Re: Addison Public Comments - Plowing. For Public Comment 2/14

Caution! This message was sent from outside your organization.

Thank you so much for your service to our community.

Yes, the plows were out @ 11:00 PM when we got home and and they were able to remove snow & the ice has melted with the sun today !! It looks wonderful and is now passable. Thank you & your crews. Will the addition of Addison slow down our snow removal ? As the City grows in all directions, there are more streets that require services such as snow removal. I work every year with the City Manager and Council to make sure we consider increasing staff and equipment necessary to maintain the excellent level of service we provide all neighborhoods within the community. Addison along with the several other new subdivisions under construction at all corners of the City will necessitate the continued expansion of our Public Works operation to keep up with growth.

Our concern still remains the need to destroy our woods & water mitigation opening up Oakhurst.

The woods behind Kensington creates a much needed buffer. I do not feel opening stub roads will enhance our snow removal or delivery trucks. If this is needed **open up Hope Lane.** As you are aware, Oakhurst like the many other subdivisions within the City, we're initially platted with the intention of joining the streets to future areas as they develop. The original Oakhurst plat shows this as does the 1997 Oakhurst Phase 4 expansion. Continuity between neighborhoods provides benefits to public services, emergency response routing options, private services, and the residents and visitors going to and from any particular neighborhood. Additional road connections actually reduce the traffic burden on certain neighborhood streets as neighbors use alternative access in/out of the neighborhood. Hope Lane will not be extended as it is so close to the proposed Heritage Dr. extension that the connection would be overly redundant to the other planned connections of Sylvan and Kensington. Hope Lane can also be removed with no impact to existing driveway access.

What did they use EMS only stub Roads in Seattle House Build ? Multifamily developments are generally privately maintained, and constructed with a private road/driveway networks outside of public right of way. Nevertheless for safety, emergency access drives are often included with these projects to provide additional access for emergency response egress.

Chatum & Burr Oak Drive are loop drive in & out and I think there is a 3rd development but Ian unable to locate at this writing.

Also so many of us are retired and some work from home. The traffic going in & out of Oakhurst is the school bus at 3:30 and some cars who still go to work between 7-9 am. Since the walking group uses the street 6-8 wide for years we have had no accidents because it s a loop design. No children hit in the street playing games because we have no sidewalks.

Again, as Linsey Griffith & many other have said if we do not have sidewalks installed before the stub roads are opened the city is liable for any damages to people or property with the influx of delivery trucks, snow plows and traffic mitigation in a new pattern unfamiliar to our neighborhood. Sidewalks can be added to a neighborhood through a petition process. If 50% or more of the residents on a particular street request a project such as sidewalks, City Council can consider passing a resolution of necessity directing the City to construct a project and assess the cost to the property owners. I should say that when the Oakhurst 4 section was complete back in the late 90's with the inclusion of sidewalks, the existing residents spoke out in force against the construction of sidewalks along the existing sections of the Oakhurst neighborhood. Nevertheless, if the desire of the neighborhood has changed since then, sidewalks could be added through an assessment project. The sidewalks constructed in Oakhurst four were constructed as part of the individual home construction and as such, paid for by the property owner's as is typical throughout the City.

It is curious the Shelbourne area has shut down their stub roads without an GIS (not sure if the is the correct lingo) survey. The Shelbourne/Hayes Colony subdivisions were constructed with six existing road stubs, each intended to provide continuity to future developed area. All but two will be extended into adjacent proposed development.

During the negotiations with Speedway you assured the Oakhurst Neighborhood that we would not need an exit route out of our neighborhood. That not having a stub road would not slow down EMS, Fire, or evacuation if there was a chemical spill in our Town Hall Meeting for the Oakhurst Subdivision. **You were right we do not need the stub roads opened up.**

Susan & Mike –

Thank you for providing public comment regarding the Addison project. You both stated concerns over the plowing efforts by the City in the Oakhurst neighborhood. I wanted to follow up with you regarding our snow removal policy. Our roads are divided into three priorities with priority three streets generally being the local neighborhood roads such as Kensington and Sylvan. Our goal is to have all Priority 3 streets cleared within 48 hours after snowfall ends. In respect to yesterday's snowfall, your streets were plowed between 11PM and 12PM. For the prior storm that began on Sunday evening and ended early Monday, your streets were cleared by 4PM Monday afternoon. Our snow removal equipment is outfitted with GPS tracking that allows us to track the location and progress of our operators through an entire snow event. This information is then saved for future reference as needed.

Please feel free to forward any additional questions regarding snow removal to my attention.

Respectfully,

William L. Ferrigno, P.E.

[DPD34 23:13:24]: SEVERAL RESIDENTS OF THE FIRST APARTMENT BUILDING ALL HAD SOME FRIENDS OVER AND ALL DECIDED IT WAS A GOOD IDEA TO SET UP A PARTY ON BILTMORE JUST WEST OF SKY VIEW. THIS SECTION IS CURRENTLY A DEAD END. THE ONES THAT DID STICK AROUND AND NOT RUN WHEN SAW ME WERE INFORMED OF THE CITY ORDINANCES AND WHAT IS AND WHAT IS NOT PERMITTED. THEY ARE IN THE PROCESS NOW CLEANING UP THE STREET AND ASSURED ME THERE SHOULD BE NO FURTHER PROBLEMS OR ISSUES.

[DPD86DG 21:03:58]: CP AT 129 KERRY PARK CIRCLE (FIRST FLOOR APARTMENT) REPORTED A MALE HAS BEEN STALKING HER FOR ABOUT A MONTH. MALE IS DESCRIBED AS A 510-600HEIGHT, 160-180WEIGHT, 20-25AGE, POSSIBLY MIDDLE EASTERN, SHORT BLACK HAIR, STUBBLE, GLASSES, TYPICALLY WEARING JEANS, DARK JACKET, TAN WORK BOOTS. POSSIBLY HAS A TATTOO OF AN ANGEL HOLDING A SWORD ON ONE OF HIS WRISTS. CP REPORTED THE SUSP HAS CIMBED OVER THE FENCE BY HER SLIDING GLASS DOOR AND PEERED INSIDE THE WINDOW AT LEAST TWICE AND HE HAS SLOWLY WALKED BY HER WINDOW TO PEER INSIDE "ABOUT 20 TIMES" OVER THE PAST MONTH. LAST NIGHT, THE CP'S TWIN SISTER WAS WALKING THE DOG OUTSIDE AND THE MALE APPROACHED HER BUT FLED WHEN HE REALIZED IT WAS NOT THE CP.

DPD19 GOT PROPERTY FROM UNRELATED OWNER / alicia maitland left resi at 0623 1/17/21 has not been seen or heard from since was supposed to be headed towards yellow springs - has been making comments that dont make sense may be having manic episode - she will be entered into leads as missing. Update 1/19/2021 1910 [DPD82JC 19:08:38]: SPOKE WITH ALICIA MAITLAND OER THE PHONE AFTER SHE WAS LOCATED XENNIA POLICE. MAITLAND LEFT HER HOUSE IN DELAWARE ON SUNDAY MORNING. HER 17 AND 19 YEAR OLD CHILDREN WERE NOT ABLE TO MAKE CONTACT WITH HER AND ONLY KNEW SHE HAD GONE TO YELLOW SPRINGS. FRIENDS AND FAMILY STATED SHE HAD MADE COMMENTS THAT DID NOT MAKE SENSE AND MADE OTHER PARANOID STATEMENTS. MAITLAND SAID SHE WAS GOING THROUGH A DIFFICULT TIME AND NEEDED TO SORT THINGS OUT. MAITLAND ADMITTED SHE DID NOT MAKE ARRAINGMENTS FOR HER SEVENTEEN YEAR OLD SON BEFORE LEAVING. MAITLAND SAID SHE WAS NOT SUICIDAL AND DID NOT WANT TO HARM HERSELF. ALICIA MAITLAND (5/3/76) LIVES AT 202 KERRY PARYK CIRCLE HER CELL PHONE NUMBER IS 740-513-7664.

[DPD86DG 21:01:09]: PARENTS OF JUVENILE SAID THEY HAD PERMISSION FROM PROPERTY EMPLOYEE. THEY WERE VERY COOPERATIVE. SPOKE WITH CP. INFORMED THEM THERE WAS NO CRIME TO ENFORCE. THEY SAID THEIR ONLY CONCERN WAS THE JUVNENILES SCRATCHING CARS. I SPOKE WITH PARENTS AND JUVENILE AGAIN. JUVENILE AGREED TO KEEP DISTANCE FROM PARKED VEHICLES.

[DPD84JL 15:13:05]: CP JOSEPH QUIGLEY SAID HE AND GF MONA ATIEYA WERE LEAVING IN THEIR CAR AND NEIGHBOR NATALIE STIRP AND OTHERS APPROACHED AND POUNDED ON HIS CAR WINDOW, STATING THERE WAS NOT A PROTECTION ORDER. QUIGLEY DID NOT KNOW THE NAMES OF THE OTHER PARTIES. QUIGLEY SAID ATIEYA HAD A PROTECTION ORDER INVOLVING STIRP BUT I CHECKED BOTH VIA NCIC AND DID NOT FIND ONE. HE SAID IT MAY HAVE EXPIRED WITH THE COURT DATE OF 4/12/21 AND HE DID NOT THINK SHE HAD ANY PAPERWORK DOCUMENTING IT, HE JUST WANTED TO MAKE POLICE AWARE. I WAS GOING TO SUGGEST HE CONTACT MANAGEMENT BUT HE SAID STIRP WAS POSSIBLY MOVING OUT THAT DAY SO IT WOULD NOT BE AN ISSUE AND THEY WERE GOA.

Comments

Responder	Date	Time	Comment
9914	04/28/2021	12:05:11	CALLER SAID LAST NIGHT DPD WAS LOOKING FOR SOMEONE - CALLER HAD AN INTRUDER
9914	04/28/2021	12:06:25	IN HER HOME LAST NIGHT - BTWN 1930 AND 2030 - CALLER STATES SHE WAS IN HER KITCHEN
9914	04/28/2021	12:06:38	AND HER DOOR OPENED - SHE THOUGHT IT WAS HER BF - IT WASN'T - A MALE WAS IN HER
9914	04/28/2021	12:07:04	HOUSE WITH NO SHIRTS - TATS AND UNDERWARE - HAD SHOES ON - THIS WAS AFTER
9914	04/28/2021	12:08:06	THE PD WAS AT THE COMPLEX - SAID HE WAS CALM AND SMILING - SHE TOLD HIM TO LEAVE
9914	04/28/2021	12:08:21	AND HE JUST STOOD THERE - SHE THEN YELLED AND THE DOG BARKED - HE FINALLY LEFT
9914	04/28/2021	12:08:47	AFTER ANOTHER FEMALE YELLED AT HIM FROM THE 3RD FLOOR AND HE LEFT - CALLER
9914	04/28/2021	12:09:04	THINKS THIS MALE MAY HAVE BEEN WATCHING HER AFTER HER BF LEFT - MALE TOLD HER
9914	04/28/2021	12:09:55	WRONG PLACE THEN HE RAN AWAY

[DPD35 12:43:37]: KRISTEN ABBOTT REPORTS AT 10PM LAST NIGHT HR NEIGHBORS BOYFRIEND WALKED INTO HER APARTMENT WEARING BOXER SHORTS AND DIDNT LEAVE WHEN SHE FIRST ASKED. NEIGHBOR WENDY ERTX EXPLAINED HER B/F ZACH BALDWIN WAS DRUNK AND WENT TO TAKE THE DOG OUT,ADMITTEDLY IN HIS BOXERS, AND CAME BACK UPSTAIRS TO THE WRONG APARTMENT. ABBOTT SAID SHE WAS FINE WITH THE EXPLANATION AND DECLINED A REPORT.[DPD35 12:47:06]: ABBOTT ALSO CONCEREND WITH HEAVY PD PRESENCE AROUND THE SAME TIME. EXPLAINED TO HER WE WERE LOOKIG FOR A WARRANT SUBJECT ON AN UNRELATED MATTER.

[DPD88JC 15:38:30]: THE CP CALLED AND ADVISED TWO DAYS AGO... HE, HIS GIRLFRIEND, AND APARTMENT COMPLEX MAINTENANCE (JEREMY) GOT INTO A VERBAL CONFRONTATION. JEREMY AGGRESSIVELY CONFRONTED NICK AND HIS GIRLFRIEND ABOUT A DOG COMPLAINT. NICK REPORTED THE INCIDENT TO THE FRONT OFFICE, BUT HE WAS NOT SATISIFIED WITH THE OUTCOME. NICK WANTED THE INCIDENT DOCUMENTED IN CASE JEREMY RETALIATES IN THE FUTURE. NO CRIME OCCURED AT THIS POINT.

[DPD84JL 12:19:32]: NATHAN COPELAND OF 142 KERRY PARK REPORTED THAT A LARGE AMOUNT OF BLOOD HAD DRIPPED DOWN FROM THE PATIO OF THE APT ABOVE HIS SOMETIME DURING FRIDAY NIGHT. COPELAND SAID HE REVIEWED HIS SURVEILLANCE CAMERA AND BELIEVED HE COULD HEAR SOMEONE SAY "DON'T HIT MY KID IN ANGER." THE BLOOD HAD BEEN CLEANED FROM COPELAND'S PORCH WHEN I ARRIVED. I CONTACTED NATHAN SAYRE OF 242 KERRY PARK WHO SAID THERE HAD BEEN DRINKING AND YELLING FRIDAY NIGHT. HE SAID ONE OF HIS DOGS HAD BLOODY DIARRHEA ON THE PORCH, WHICH HE SHOWED ME THE STAINS STILL THERE. HE SAID THE DOG WAS TAKEN TO MEDVET. THREE OTHER ADULTS WERE IN THE APT AS WELL AS AN INFANT. ALL APPEARED TO BE OK AND SAYRE'S STORY MADE SENSE. SAYRE WAS APOLOGETIC AND WANTED TO WORK WITH THE NEIGHBOR IN CLEANING UP THE MESS AS HE FEARED CLEANING HIS PORCH WOULD LEAD TO FURTHER MESS BELOW.

Response

[DPD82JC 18:25:33]: QUIGLEY SHOWED ME MESSAGES AND AUDIO MESSAGES FROM GUNNOE. THREATS WERE INDIRECT AND OVER $20-$30 FROM WHEN THE TWOWENT OUT DRINKING AT EASTON A FEW WEEKS AGO. THEY WERE ADVISED TO CALL THE POLICE IF GUNNOE WERE TO SHOW UP. GUNNOE DID MAKE STATEMENTS THAT HE HAD GUNS AND HIS FRIENDS HAVE GUNS BUT NO DIRECT THREATS AND MOST OF WHAT HE SAID WAS HARD TO UNDERSTAND. NO REPORT AT THIS TIME.

[DPD84JL 15:54:29]: CRYSTAL WEST WAS LOCATED AT 225 KERRY PARK CIRCLE WITH HER THREE CHILDREN: SEANNA ROUSH 6/24/05, MASON ROUSH 3/10/10, AND LILEE ROUSH 8/8/14. I SPOKE TO ALL THREE CHILDREN WHO SEEMED FINE. CRYSTAL GUESSED THAT HER SIGNIFICANT OTHER CALLED IT IN, I TOLD HER IT WAS NOT HIM BUT THE CALLER WISHED TO REMAIN ANONYMOUS. CRYSTAL SAID SOMETHING ABOUT THE RESIDENCE WAS A SAFE SPACE SHE FELT SHE COULD GO BUT NOW SHE QUESTIONED THAT. AS I WAS LEAVING, SEANNA WAS ON THE BALCONY AND CRYSTAL WENT TO TAKE HER CELLPHONE. SEANNA THREW A FIT AND YELLED: "I DIDN'T TELL HIM ANYTHING, THIS IS NOT BECAUSE OF ME."

[DPD92EL 01:13:09]: JEREMY BEILHARZ (RESIDENT SERVICES COORDINATOR) WAS ADDRESSING A REOCCURING NOISE COMPLAINT FROM A TENANT WITH A SHARED WALL TO 253. WHILE ATTEMPTING TO ADDRESS THE COMPLAINT BY KNOCKING ON 253'S DOOR ASKING THEM TO KEEP IT DOWN, WOLFORD WAS NOT AWARE THAT JEREMY WORKED FOR MANAGMENT. THIS CAUSED WOLFORD TO QUESTION WHO JEREMY WAS AND ATTEMPT TO CHASE HIM AWAY PROMPTING OUR RESPONSE.

[DPD59 22:30:08]: LASHAY WAS FEEDING HER 2 YEAR OLD DAUGHTER WITH MEAT. THE DAUGHTER WAS NOT CHEWING THE MEAT AND WHEN LASHAY REACHED IN FOR THE FOOD, HER DAUGHTER BIT DOWN HARD ON HER FINGER. THIS CAUSED LASHAY TO BE HURT AND WAS YELLING LOUD ABOUT IT. THE DAUGHTER IS FINE, IN GOOD SPIRITS, AND IT DOES NOT APPEAR LASHAY DEMONSTRATED ANGER TOWARDS HER DAUGHTER. DAUGHTER WAS WATCHING TV WHEN I WAS IN THE HOUSE ANSWERING ALL MY QUESTIONS AND SMILING. THERE WAS ALSO VERY CLEARLY NO SIGNS OF MARIJUANA BEING USED INSIDE THE RESIDENCE. THEY SMOKE CIGS BUT INDICATORS OF OTHER DRUGS WERE CLEARLY ABSENT. LASHAY BELIEVES THE NEIGHBORS ARE LODGING COMPLAINTS BASED OFF OF RACE AND SEXUALITY. SHE WAS ADVISED OF THE COMPLAINT BUT THE COMPLAINT TONIGHT APPEARS UNFOUNDED.

[DPD95TK 00:11:19]: JEREMY WORKS FOR SEATTLE HOUSE APARTMENTS AND HANDLES NOISE COMPLAINTS AS WELL AS CLEANING UP AROUND THE PROPERTY. TIM HAS RECEIVED 2 NOISE COMPLAINTS RECENTLY, AND HAS BEEN APPROACHED BY JEREMY A COUPLE OF TIMES. IN A RECENT INTERACTION, JEREMY HAS A VIDEO OF TIM TELLING HIM TO NOT COME AROUND HIS PROPERTY ANYMORE, WHICH JEREMY TOOK AS A THREAT. JEREMY ALSO CLAIMED TIM TOLD HIM HE WAS GOING TO KICK JEREMY'S ASS, BUT TIM SAID THAT NEVER HAPPEENED. TIM STATED JEREMY CAME TO HIS APARTMENT ONE NIGHT AT 0030 HOURS AND TRIED SPEAKING TO HIM ABOUT A NOISE COMPLAINT, AND TIM THOUGHT THAT WAS UN -NECESSARY, AND WAS FRUSTRATED BY THAT.[DPD95TK 00:12:48]: TIM IS GOING TO MANAGEMENT TO FIGHT THE $50 CITATION FOR NOISE, AND DOES NOT WANT JEREMY ANYWHERE NEAR HIS APARMTNET. I SPOKE WITH JEREMY AND ALTHOUGH I CANNOT FORCE HIM TO STAY AWAY, I RECCOMENDED HE ONLY GO AROUND TIM IF WOKR DUTIES REQUIRE IT.[DPD95TK 00:14:40]: JEREMY ALSO MENTIONED THAT TIM SAID SOMETHING ABOUT A GUN, AND WHEN ASKED IF JEREMY BELIEVED TIM WOULD ATTEMPT TO HARM HIM WITH A GUN HE STATED NO. JEREMY BELIEVES TIM JUST HAD MENTAL ISSUES.

INPRT	ABBOTT, KRISTIN M	07/14/1988	Female	
INPRT	EVANS, CODY LEE	08/29/1993	Male	

Disposition

1. Incident Report
2. Information Only
3.
4.

[DPD95TK 01:33:37]: CODY AND KRISTIN WERE INVOLVED IN A VERBAL ALTERCATION AFTER KRISTIN DISCOVERED CODY HAD BEEN CHEATING ON HER. KRISTIN WAS NOT WILLING TO SPEAK MUCH ON THE INCIDENT, BUT DID SHOW SOME MARKS ON HER LEG, BUT DID NOT DISCLOSE HOW SHE RECEIVED THEM. INTITALLY CODY STATED NOTHING WAS PHYSICAL BETWEEN THE PAIR, BUT THEN AFTER HEARING ABOUT THE MARKS SAID KRISTIN CAME AT HIM. NEITHER PARTY WAS WILLING TO COOPERATE FULLY, AND CODY LEFT FOR THE NIGHT. KRISTIN WAS ADVISED IF SHE WANTED TO SPEAK FURTHER ON THE INCIDENT THAT WE WOULD GLADLY SPEAK WITH HER. REPORT TAKEN FOR DOCUMENTATION.

[DPD61 23:26:41]: VERBAL. FEMALE CALLER DENIED ANY THREATS OR PHYSICAL VIOLENCE. SHE STATED THE MALE JUST WOULD NOT LEAVE HER ALONE AND WANTED TO DISCUSS THEIR RELATIONSHIP, AFTER SHE TOLD HIM TONIGHT SHE WANTED A DIVORCE. SHE JUST WANTED TO GO TO SLEEP AND HE WOULD NOT LET HER SLEEP BECAUSE HE WANTED TO TALK ABOUT THE RELATIONSHIP. MALE HAD BEEN DRINKING, BUT NOT INTOXICATED.[DPD61 23:26:58]: BOTH AGREED TO STAY SEPERATED FROM EACH OTHER FOR THE REST OF THE EVENING.

Caution! This message was sent from outside your organization.

Dear City Council Members,

I am a Delaware resident who resides at 237 Sylvan Dr. in the Oakhurst subdivisin. I would like to add my voice to others requesting a fourth reading of the Addison Farms cases. There are a number of issues that in my view require further study. The ones that I am most concerned about are:

- Is it really necessary to open up the stubs on Sylvan and Kennsington to the extended Heritage Blvd? It would be fair to say that the residents of Oakhurst really don't want this to occur. I have heard that others have proposed that after the Heritage extension is completed that a traffic study should be done to see if opening the stubs is warranted. I very strongly support waiting until the Heritage extension is complete before deciding on this as we would have greater clarity of the need, if any to open up the stubs.
- The proposed location of Heritage will result in 2205 Hope Lane and 2199 Hope Lane having streets on three sides of them. This does not seem fair to me. Further, these two houses would be an island surrounded by Hope, Sylvan, Heritage, and Kensington. This will most likely impact their property values.
- Are the buffers to existing houses and property adequate? I concur with others advocaging a 120 foot buffer between Heritage and existing houes as well as a larger buffer behind homes on Kensington.

Thank you for your consideration.

Caution! This message was sent from outside your organization.

Dear City Council Members,
Due to the complexity of the Addison Farms cases and the number of issues that still need addressed, I respectfully ask Council to have a fourth reading of the related ordinances.

As a neighborhood, we're asking our City Council members to add a condition that the Merrick Parkway right-of-way not be any closer than 200 feet to existing properties in Shelbourne Forest (883-999 Executive Blvd, 178 Woodhaul Dr., and 130-218 Pinecrest Dr.). We believe this satisfies the conditions of the petition submitted in September 2021, and although not a perfect solution and quite a compromise for those who anticipated this arterial road would be in the middle of the development, after discussion we find it to be a reasonable minimum distance.

Oakhurst points:

1. Oppose the PMU in its current form for Addison Properties
2. Request a 4th reading due to the complexity of the Addison Project
3. The Addison Project does not comply with the Comprehensive City Plan Legislated May 2021
4. Request public comment for 2/14 City Council Meeting
5. Oppose opening of stub roads in the Oakhurst Development (or at least until Hertitage is done & a traffic study is completed).
6. City to provide sidewalks for the 2/3rds of Oakhurst Development that does not have sidewalks currently installed if the stub roads are opened.
7. Expand Buffer along Heritage Blvd to 120 feet consistent with general buffering in the Addison plan and give 120 feet to the Kensington property line to buffer sound & water mitigation.

Caution! This message was sent from outside your organization.

Thank you for your time and your devoted attention to this matter.

At this point you are probably exhausted from all of the public input, but this is the glory of political discourse and community buy in! Not to beat a dead horse, but we STILL have very serious concerns about water management, ground water levels, and water sequestration. As presented, the plan is much better than the initial proposal with many more retention ponds. But with the destruction of 5 small wetlands/marshy areas and the removal of thousands of trees, in an area with already high ground water levels and water saturation, we're concerned that there is potential for a dangerous flooding situation, causing property damage- and in the case of heavy rains- potentially loss of life due to flash flooding (especially in the manufactured home community east of 23).

As presented, the proposal only accounts for temporary management of <4million gallons of water annually.

Each small wetland sequesters 1-1.5 million gallons annually (5-7.5 million gallons- leaving a 1-3.5 million gallon deficit between the wetlands and the retention ponds proposed) and 100,000 trees (low estimate of 600 trees per acre- assuming a retention of greater than 1/4 trees on the property) sequester over 3.5billion gallons of water annually. There has been no accommodation for the 1-3.5 BILLION gallons of water that will no longer be sequestered by the trees removed in this area. Mr. Friedman indicates this will be directed towards the Olentangy, but how will that affect our flood management for the east side of town? Inevitably some of this 1-3.5Billion gallons of water will end up in the Delaware Run, further exacerbating the flooding issues downtown.

The public hasn't been made aware of how the city is working to deal with the current flooding issues, let alone how they can mitigate additional millions of gallons of water through the Delaware run. This is a concern- not just for our neighborhood- but for the entirety of Delaware.

Additionally, Shelbourne Forest residents are respectfully asking for a minimum of 200 yd clearance between properties and Executive Parkway- since the city recently announced they DO indeed intend to utilize Executive as a Northside thoroughfare, not a community collector street.

Thank you for your service, your time and attention, and your due diligence for the safety of Delaware and Ward 1 residents.

Sincerely,

Linsey Griffith and Ken Doughman

Subject:	Addison/Oakhurst Requests
Date:	Friday, February 11, 2022 4:23:56 PM

Caution! This message was sent from outside your organization.

Dear City Council,

We know you are probably overwhelmed with ideas and suggestions regarding the Addison development project, but we would like to add the following important points before the upcoming 2/14 meeting:

1. Please allow time for public discussion at the 2/14 meeting. It was brought to our attention that there may not be time slotted for public comments, but we feel that there are still important points to be made.
2. Similarly, we would like to request a fourth reading due to the amount of unresolved issues in this complex project. Please consider postponing your vote until some more thought can be put into our well founded concerns.
3. We oppose the PMU in its current form for Addison Properties for the following important reasons:
   a. The Addison Project does not comply with the Comprehensive City Plan finalized last Spring. It was agreed that efforts would be made to place similar sized and usage properties against current properties (like against like) for continuity and to protect property values. To us, we interpret that to mean that the proposed rental properties cannot be placed behind the larger single family homes along Kensington Blvd. It seems wrong to develop a City wide plan and then not follow it as intended. "You can't say one thing then do another," is a pretty important life lesson that we'd like all of our kids to learn and expect all of us as adults to practice.
   b. We realize that the Heritage Blvd extension is eventually going to happen regardless of how the final development is decided. We live at 2199 Hope Lane, and we would like to STRONGLY oppose the proposed 30ft "buffer" as currently planned behind our home. Even after the woods behind our home was logged/thinned several years ago it still remains a large and mature grove of trees. A small 30ft "buffer" would essentially mean that the majority of the woods would get levelled in order to pave the way for Heritage Blvd, not to mention essentially destroying our property value. That sounds completely contrary to all the talk about preserving trees. We would like to request the buffer be expanded to 120 ft which seems consistent with other general buffering in the Addison Plan. I would again like to point out the nice job that was done along Seatrain where not only was the woods buffer preserved but a very nice community walking path was developed and is used and appreciated by everyone in that community. We can see something similar developed for the woods behind our home before reaching Heritage if a little creativity is applied.
   c. Finally on the issue of opening the stub roads and sidewalks... It's true that 2/3 of our neighborhood does not have sidewalks, but we don't feel that should be tied so closely with whether or not to open up the stub roads. I think everyone would agree that sidewalks are a necessity in our neighborhood for obvious safety reasons regardless of what is decided about the stub roads. Having said that however, we would like to STRONGLY oppose opening up the Kensington and Sylvan stub roads for a previously undiscussed reason. Opening the stub roads should not be allowed as it would create a very undesirable three sided frontage for our home as well as our neighbors: Marianne Parker who live at 343 Kensington and Ralph and Betty Dey who live at 2205 Hope Lane. Can you imagine having roads surround your home on three sides ?!
   For the Campbells and the Deys, that would mean their two properties would be surrounded on four sides by roads !! Not only would that ruin our property values as pointed out above, but I think it would be reasonable to assume that it would make it downright difficult to sell our homes at all when we are eventually ready to downsize. I know this is becoming quite wordy, but how about this idea for a compromise regarding these last two points.... Could you please think of a creative way to

use the Hope Lane stub road to curve around and connect to Heritage ? And if that's possible and IF the other two stubs can remain closed and IF the woods can be preserved with the bigger buffer proposed above, then we can envision a nice walking trail winding through the woods and connecting both the Kensington and Sylvan stubs ! That would be pretty impressive !

Thank you for considering all of our concerns.

Sincerely
Scott A Campbell, DDS
Kristin L Campbell, OD

February 13, 2022

Dear City Council Members,

Due to the complexity of the Addison Farms cases and the number of issues that still need addressed, I respectfully ask Council to have a fourth reading of the related ordinances.

This will give Council more time to consider the issues.

Additionally members of Shelbourne Forest and Oakhurst are requesting the following as a result of conversations with Councilmember Tackett.

Shelbourne Forest:
As a neighborhood, we're asking our City Council members to add a condition that the Merrick Parkway right-of-way Not be any closer than 200 feet to existing properties in Shelbourne Forest (883-999 Executive Blvd, 178 Woodhaul Dr., and 130-218 Pinecrest Dr.) and that the area between the properties and right-of-way be buffered with existing and additional trees and mounding. We believe this satisfies the conditions of the petition submitted in September 2021. This is Not a perfect solution and quite a compromise for those who anticipated this arterial road would be in the middle of the development.

Oakhurst points:

1. Oppose the PMU in its current form for Addison Properties
2. Request a 4th reading due to the complexity of the Addison Project
3. The Addison Project does not comply with the Comprehensive City Plan Legislated May 2021
4. Request public comment for 2/14 City Council Meeting
5. Oppose opening of stub roads in the Oakhurst Development (or at least until Hertitage is done & a traffic study is completed).
6. City to provide sidewalks for the 2/3rds of Oakhurst Development that does not have sidewalks currently installed if the stub roads are opened.
7. Expand Buffer along Heritage Blvd to 120 feet consistent with general buffering in the Addison plan and give 120 feet to the Kensington property line to buffer sound & water mitigation.

Thank you very much,

Caution! This message was sent from outside your organization.

Dear City Council Members:

Due to the complexity of the Addison Farms case and the number of issues that still should be addressed, I respectfully ask the Council to have a fourth reading of the related ordinances. I do not object to development of the acreage but am quite concerned about the density of development. The area is going from open fields and woods with multiple tributaries to impermeable surfaces such as, houses, roads and commercial lots. How will the coverage planned as is handle storms? How will the excess stormwater entering the Olentangy affect the downtown area? There is a great need for allowing water to percolate into the soil to replenish our groundwater and to avoid flooding.

Sincerely,
Nora Hiland
799 Executive Blvd.

Subject:	Delaware Together Plan Tenets vs. Addison Farms Development Plan - for Public Comment
Date:	Sunday, February 13, 2022 4:31:44 PM
Attachments:	

Caution! This message was sent from outside your organization.

Representatives of Delaware City Council,

Our names are Lisa and Tony Bonofiglio and we reside at 321 Kensington Dr., Delaware, OH.

Beginning in April 2018 the City began work on the Delaware Together Comprehensive Plan (The Plan) and this concluded with the **formal legislative adoption** of The Plan on May 10, 2021. The Plan was completed and adopted months prior to the Addison property purchase and preliminary proposal.

Prior to City Council voting on the Addison Farms Development plan on February 14, 2022, we strongly urge each member of City Council to go back and review the contents of the Delaware Together Comprehensive Plan (The Plan) and watch the video of the "Delaware Together Plan Unveiling". We have included the link to this 3:52 second video for your convenience. https://youtu.be/pyi_50i2WAI

The following information is not our words, but the words of the city. Beginning at the 2:42 minute mark of the video Mr. Efland eloquently explains how this: "really isn't the ending it's the beginning of the hard work of implementing the plan for how we are going to live and work in Delaware and what we will be and become over the next 10 – 15 years". This then follows from the narrator at the 2:55 minute mark and we quote: "With formal legislative adoption by the City of Delaware Planning Commission and City Council the plan now serves as a guiding policy document to help navigate the growth and development coming to Central Ohio and to our City of Delaware."

Now come the questions that we believe City Council, the Planning Commission and the Planning and Community Development Department need to answer prior to voting on the Addison Development Plan. The tax paying residents of our community and in particular the residents of Hayes Colony, Shelbourne Forest, Oakdale, and Oakhurst deserve a response.

How does the Addison Farms infill/suburban edge development plan meet the tenets outlined in the legislatively adopted Delaware Together Comprehensive Plan in relation to the following? See attached document for full exhibits.

Infill Development – page 42 Exhibit 1

- Infill requires sensitive design guidance to ensure compatibility in character with surrounding buildings.

Suburban Edge Development – page 44 Exhibit 2

- When development occurs adjacent to existing development an appropriate transition is needed and adjacent lots should be consistent in use and size. Smaller lots or more intense uses may be located in the interior of the development.

Objective A.2 – page 112 – Exhibit 3

- However, in order for higher density development to integrate into the existing environment, it will be critical that it is located so as to not adversely impact existing single-family only neighborhoods.

Action A.2.1 – page 112 – Exhibit 4

- In addition, mixed-use Activity Centers can be appropriate for higher density if edge development conditions provide a buffer with single-use residential areas and design is of high quality.

Action A.2.2 – page 113 – Exhibit 5

- Create guidelines to be applied to any locations when higher density is allowed that demonstrate how it can be integrated without adversely impacting existing lower-density areas.

Objective D.4 – page 188 – Exhibit 6

- Current and potential future residents of Delaware desire to live in neighborhoods that retain high quality housing. This is important both to maintain housing values and to preserve existing character.

Action D.4.2 – page 188 – Exhibit 6

- Discourage unsympathetic changes to successful existing neighborhoods. New construction that is vastly different in scale and/or character should be avoided.

Note: City Council should pay particular attention to this action specifically for what is being proposed by Addison in "SUB-AREA E" – 53 acres of 315 one-story multi-family units and for the residents on the eastern edges of Executive Boulevard, Pinecrest Drive and the western edge of Oakhurst.

Objective E.3 – page 199 – Exhibit 7

- Through a combination of managing new developments and pursuing policies and programs, the city should seek to preserve natural environments and the habitats they support.

Objective E.4 – page 203 – Exhibit 8

- Enhance urban tree canopy.

Action E.4.1 – page 203 – Exhibit 8

- Methods of encouraging alternative site designs to reduce tree loss should also be developed and pursued.

We ask City Council, why do we have a Delaware Together Comprehensive Plan when the first development that comes along after the adoption, we disregard all the key tenets of the "The Plan" that are designed to incorporate with the existing neighborhoods and preserve natural environments and enhance urban tree canopies?

We are not averse to future development and have understood that to be a possibility since the purchase of our home in 2005. Our concern is the city is not following the tenets outlined in the Delaware Together Comprehensive Plan. This Addison development plan can be so much better by following the tenets outlined in "The Plan". Yet this plan has no resemblance to all the exhibits included in the communication. Is this the way the city intends to move forward when it comes to development, disregard "The Plan" and acquiesce to the wants and needs of the developer? The vision seems a bit short sighted and not in the best interest of the community.

In closing, the residents of the affected neighborhoods have continued to express our concerns regarding this development. The developer has made token adjustments to his plan. Prior to the third reading and potential approval by City Council of the Addison Farms infill/suburban edge development plan, we believe the tax paying residents deserve an answer with legally documented justification to the above questions.

Thank you for your time and consideration and we look forward to the City's documented responses.

INFILL

Infill is development within an existing developed area on vacant lots that is generally consistent in form and scale with its surroundings. It can also include construction on a mostly built-out lot that intensifies the use. Examples of infill are where a new home is built between two older homes or a new building is constructed on an empty lot in a commercial district between two existing structures. Infill will usually occur in areas with an established housing or business base that is experiencing an increased demand and has a supply of available lots or underutilized lots. Infill requires sensitive design guidance to ensure compatibility in character with surrounding buildings.

- Benefits: Infill projects increase development intensity in areas with existing infrastructure and public services and provide additional housing options, commercial space or retail/services. They can help to re-knit existing built fabric of an area, such as when built on a vacant lot between two existing uses.
- Challenges: Infill projects are surrounded by established development. Larger-scale buildings and an increased level of activity can be viewed as encroaching on established lifestyles and character.

Infill housing located between an older residential area and a shopping center (Redwood / Glenwood Commons) has a contemporary style but is compatible with the scale and character of existing development.

GUIDELINES

- New buildings should be built at a similar scale and with similar lot configuration (setbacks and location of parking and outbuildings), as well as with architectural proportions in context with the block and street.
- If infill takes place on lots at the edge of an area with more intense development, buildings may be constructed in between the scale of the two areas to provide a transition.
- The style of new structures should take cues from the existing context, but should be distinguishable and reflect the era in which it was built rather than mimicking older styles.
- All features of the rights-of-way, including sidewalks, curbs and gutters, curb cuts, and access should be consistent with the existing context if it is of a desirable quality. In contexts where the surrounding environment lacks desired features or amenities, new development should (and may be required by City regulations to) include a higher standard in such features.
- Consider the fiscal impacts of the development along with other factors.

SUBURBAN EDGE DEVELOPMENT

Suburban Edge Development is when a large piece of land (usually more than 50 acres in size) that was previously used for agriculture or forestry, and is surrounded by at least two sides of other large parcels, is developed. The property could be subdivided, condominiumized or part of a Planned Unit Development (PUD). A new street network, infrastructure, and buildings are built. This type of development has been common in Delaware in recent decades and typically involves annexation from one of the surrounding Townships in accordance with the City's plans and utilities.

- Benefits: Suburban Edge Development does not require demolition or adaptive re-use of existing structures except in cases where land needs to be cleared, for example, where there is an old farm or barn. It can accommodate large format uses or larger residential developments at a time of high demand for more housing or other uses. The initial cost of land can be less expensive than in redevelopment or infill projects because there is no existing infrastructure or no significant structures present.
- Challenges: Establishing connectivity to existing public road networks through adjacent development can be difficult. It can have adverse, long-term fiscal implications for local government from a maintenance perspective. The cost of infrastructure, improvements in rights-of-way and new services can outweigh the marginal cost difference in the land. Achieving the most appropriate balance between the existing character of Delaware while meeting demand for housing and other types of development will require thoughtful development standards or PUD. While PUDs can create valuable oversight and flexibility they can increase the need for City staff resources. They can also make approval processes lengthy, uncertain and costly for land owners.

GUIDELINES

- Multimodal transportation connectivity to adjacent areas should be emphasized.
- Protected and accessible open spaces and connections to nearby open space networks should be provided.
- Private sector applicants should build new roads following the City's Major Thoroughfare Plan to accommodate multimodal travel and include sidewalks, bike lanes, and on-street parking consistent with the City's Bike and Pedestrian Plan.
- New development should be coordinated and timed relative to infrastructure availability. Infrastructure, particularly sewer and water service, should be available concurrently with new development or developers must pay to extend it within a project.
- When development occurs adjacent to existing development an appropriate transition is needed and adjacent lots should be consistent in use and size. Smaller lots or more intense uses may be located in the interior of the development.
- While accommodating development, preservation of (or mitigation of) impacts to significant environmental features, wetlands, streams, large stands of trees, and the like (where appropriate) is expected.

Exhibit 3 – Page 112 – Delaware Together Comprehensive Plan

OBJECTIVE A.2

Encourage quality, higher density development in selected locations.

As a complement to encouraging mixed use development in selected locations, allowing for higher density in desired locations can help to support more sustainable and desirable growth (for example, the addition of in-demand housing units) while minimizing strain on expanding infrastructure and protecting open and agricultural space. It can help to provide a range of housing including attached housing for residents who work in the local community, enhancing the City's economic development goals. However, in order for higher density development to integrate into the existing environment, it will be critical that it is located so as to not adversely impact existing single-family only neighborhoods. It also must meet high standards for design quality of the units and the site, including landscaping, layout, roads, pedestrian paths, trees and other features.

Exhibit 4 – Page 112 – Delaware Together Comprehensive Plan

Actions

A.2.1 **Identify appropriate locations for quality, higher-density development.** In accordance with the recommendations in this plan, locations in Downtown and certain areas in the vicinity may be appropriate for some additional density. In addition, mixed-use Activity Centers (nodes within or adjacent to existing development) can be appropriate for higher density if edge development conditions provide a buffer with single-use residential areas and design is of a high quality. In addition to the mixed-use Activity Centers identified in this plan, as Area Plans are developed for the Southeast and Southwest Focus Areas, specific locations for higher density should be identified, generally around transportation corridors. This should include decreasing density in reasonable ranges moving outward from these corridors, culminating in single family detached development.

Exhibit 5 – Page 113 – Delaware Together Comprehensive Plan

A.2.2 **Create design guidelines.** Create guidelines to be applied to any locations where higher density is allowed that demonstrate how it can be integrated without adversely impacting existing lower-density areas. The guidelines may consider the building envelope (including height and massing), streetscape elements, circulation, building services, parking, open space, buffering, connectivity and other elements.

Exhibit 6 – Page 188 – Delaware Together Comprehensive Plan

OBJECTIVE D.4

Maintain and protect housing values and character.

Current and potential future residents of Delaware desire to live in neighborhoods that retain high quality housing. This is important both to maintain housing values and to preserve existing character.

Actions

D.4.1 **Continue code enforcement.** Violations of code should be addressed in order to require property owners to maintain housing stock to a high standard. This will involve property maintenance as well as Zoning Code issues.

D.4.2 **Discourage unsympathetic changes to successful existing neighborhoods.** The preservation of existing housing stock that contributes positively to neighborhoods, especially in areas with a high concentration of attractive housing like the Northwest Neighborhood, should be a priority. New construction that is vastly different in scale and/or character should be avoided.

Renovating older homes helps preserve the character of existing neighborhoods while advancing fiscal and economic sustainability goals.

OBJECTIVE E.3

Preserve natural environments.

Through a combination of managing new development and pursuing policies and programs, the City should seek to preserve natural environments and the habitats they support. This should be pursued while connecting and integrating them (where appropriate) to the larger community network.

Actions

E.3.1 **Continue river and stream protection measures.** The City will continue to promote conservation along rivers and streams through the location of parks and open space, floodplain preservation, requirement of forested buffers, and promotion of conservation easements. This will include continuation of the following policies and programs:

- Public parkland and private open space along the Olentangy River and its tributaries should be acquired/ designated. Park impact fee funds should be set aside to acquire identified natural areas and preserves to protect the resources, provide for their connection to Greenway networks (where appropriate), and integrate them into the larger community.
- Development continues to be strictly regulated within in the 100-year regulatory floodplain. However, it should be recognized that portions of the built urban environment such as Downtown are within this area and should be allowed to continue and be enhanced over time.
- Permanent conservation easements are designated on public and private property along riparian corridors as appropriate and/or concurrent with development.

Coordinated river clean-up efforts help to raise awareness, while building community pride and improving the condition of the river.

RIPARIAN AREA

"Riparian area" means the transition area between flowing water and terrestrial (land) ecosystems composed of trees, shrubs and surrounding vegetation that serve to stabilize erodible soil, improve both surface and ground water quality, increase stream shading and enhance wildlife habitat.

Source: Ohio Environmental Protection Agency

OBJECTIVE E.4

Enhance the urban tree canopy.

Delaware benefits from an urban tree canopy in many locations that provides aesthetic value, contributes to shade, reduces the urban heat island effect, provides stormwater benefits and provides natural habitat. Improvements can be made to the urban tree canopy in key locations.

Actions

E.4.1 **Maintain and adjust policies and standards for the City's tree canopy.** The City has policies in place to help preserve, enhance and maintain its tree canopy. However, specifications regarding ongoing maintenance, tree types and the number of trees in certain parts of the City should be revisited to determine if adjustments should be made. Methods of encouraging alternative site designs to reduce tree loss should also be developed and pursued. Other adjustments may include accounting for new street trees and required on-site trees to count toward replacement trees for any new development. In addition, trees that must be removed due to specific and unavoidable City utility placement requirements could be potentially exempted from the replacement tree requirements.

Feb. 13, 2022,

Dear City Council Members,

Due to the complexity of the Addison Farms Development and the number of issues that still need to be addressed, I respectfully ask Council to have a fourth reading of the related ordinances. This will give you all more time to consider these issues.

Additionally, as a resident/member of Shelbourne Forest, we are asking our City Council members to add a condition that the Merrick Parkway right-of-way not be any closer than 200 feet to existing properties (883-999 Executive Blvd, 178 Woodhaul Dr., 130-218 Pinecrest Dr.) Also, the area between the properties and right-of-way should be buffered with existing and additional trees and mounding. We believe this satisfies the conditions of the petition submitted in September 2021. Although this isn't a perfect solution and quite a compromise for those who anticipated this arterial road would be in the middle of the development, after discussion we find it to be a reasonable minimum distance.

As you know, there are many valid concerns for our residents in the Oakhurst subdivision. These need to be addressed as the changes asked for by the Addison Farms project will significantly change that neighborhood, it's safety and way of life, and probably decrease their home values.

The environmental impact and ecosystem degradation is Huge! So much unnecessary damage that can never "be replaced with new trees". The loss of habitat, wetlands, natural storm water mitigation CANNOT be overlooked. The Climate Crisis is here and it should be a guiding factor in everything, especially suburban development! You, as our elected officials, need to control and promote sustainable development all over the city, not just with this particular project.

The impact to our already overcrowded school system and aging infrastructure are a flashing Code Red. Our existing roads are falling apart, water main breaks and power grid break downs are becoming the norm. Who wants to live in a city like that? Every day for four years of high school my child had no guaranteed place to sit for lunch! The overcrowding effects every aspect of our students' educational day. The traffic problems!- the consequences of the Route 23 ODOT project- the lists go on and on.

The Addison Farms Project and all that it entails, everything they are asking for…please take more time. With all the development currently happening and all that is proposed all over Delaware, PLEASE take a step back, look at the big picture-the consequences for our city will be dramatic.
Be smart. Be reasonable. Be sustainable.

Respectfully submitted,
Deb Fuchs

Subject: City Council Meeting 2/14/2022 - Addison Farms
Date: Sunday, February 13, 2022 6:50:35 PM

Caution! This message was sent from outside your organization.

Dear City Council Members,
Due to the complexity of the Addison Farms cases and the number of issues that still need addressed, we respectfully ask Council to have a fourth reading of the related ordinances.

Also, we are asking our City Council members to add a condition that the Merrick Parkway right-of-way not be any closer than 200 feet to existing properties in Shelbourne Forest (883-999 Executive Blvd, 178 Woodhaul Dr., and 130-218 Pinecrest Dr.) and that the area between the properties and right-of-way be buffered with existing and additional trees and mounding. We believe this satisfies the conditions of the petition submitted in September 2021, and although not a perfect solution and quite a compromise for those who anticipated this arterial road would be in the middle of the development, we believe it to be a reasonable minimum distance.

In addition, here are our thoughts concerning Oakhurst:

1. Oppose the PMU in its current form for Addison Properties
2. Request a 4th reading due to the complexity of the Addison Project
3. The Addison Project does not comply with the Comprehensive City Plan Legislated May 2021
4. Request public comment for 2/14 City Council Meeting
5. Oppose opening of stub roads in the Oakhurst Development (or at least until Heritage is finished & a traffic study is completed).
6. City to provide sidewalks for the 2/3rds of Oakhurst Development that does not have sidewalks currently installed if the stub roads are opened.
7. Expand Buffer along Heritage Blvd to 120 feet consistent with general buffering in the Addison plan and give 120 feet to the Kensington property line to buffer sound & water mitigation.

We live on Panhandle Road and recognize any development west of Rt. 23 will affect our family, and every family in our area. As a matter of fact, all of Delaware will be affected. The added responsibilities to our schools, Police, Fire, and EMS should be considered, as well as, road upkeep and increased traffic.

We ask that you consider the requests and the needs of those who already call Delaware home and be reasonable and thoughtful in planning developments in a city that belongs to all of us, not just to developers.

Respectfully,

Erwin and Pamela Dugasz

Here are visuals of the marooning island of Dr. Campbell & Mr. & Mrs. Dey's house with 4 roads.
MaryAnn Parkers house will be surrounded by 3 roads with traffic. I am not sure how we missed this but it is unacceptable to have multiple frontages on these properties.
This was the reason Addison closed stub roads in their development because it violated code. " Multiple frontages"

> During our Oakhurst meeting tonight with Mr. Tackett we realized that Drs. Campbell 2199 Hope Lane and Bev & Ralph Dey 2205 Hope Lane will be enclosed by 4 right- of-way by the proposed adjacent Addison Development.

We understand that this is not allowable under code. Hope, Kensington, Sylvan, & Heritage are the 4 roads that will cause the multiple frontage.

MaryAnn Parker will have 3 streets surrounding her home on 343 Kensington Drive which is also questionable per code. (Hope, Kensington & Heritage).

According to Mr. Tackett that is why the city eliminated some of the stub roads in the proposed Addison Project.

Subject:	Placement of Merrick Parkway for Public Comment
Date:	Sunday, February 13, 2022 8:19:50 PM

Caution! This message was sent from outside your organization.

Dear Delaware City Council Members and City Staff,

Please move Merrick Parkway, which is set to become a major arterial road in Delaware County, to a minimum of 70 yards (210 feet) from the back of the property lines on Executive Blvd. and Pinecrest in the Shelbourne Forest neighborhood.

Seventy yards is still far closer to our homes than what was drawn in Delaware's thoroughfare plan that the majority of us trusted when we bought our homes. Even at 70 yards the value of our homes will decrease and our quality of life will be greatly impacted by the air, noise and light pollution Merrick Parkway will bring.

If the alignment of Merrick Parkway traveling west from Route 23 is not altered and the roundabout at Woodhaul remains approximately in the same location, then at least insist Merrick Parkway curve up and over the lower portion of the stream and Wetland A just north of Executive Blvd. Curving Merrick at this portion will maintain adequate distance so as to fully preserve this watershed area versus paving over it and removing a large swath of mature tree canopy.

So the layout of Merrick as it relates to the affected homes on Executive Blvd should be:

- Back edge of all existing home's property lines
- 70 - 100 yards (210 - 300 feet) of mature trees surrounding and protecting the lower stream and Wetland A
- Mounding with native evergreen tree plantings
- Community walking/bike path
- Merrick Parkway
- Allow space for Merrick to be expanded on the northern side of the roadway so as to ensure the trees and stream remain unharmed by future growth

Petitions with over 200 signatures of Delaware residents submitted in September of 2021 should not be set aside and ignored. Please insist that Merrick be moved further north along both Executive Blvd. and Pinecrest. Please work to preserve the rights of your constituents.

There are so many other issues that need to be addressed with the Addison plans, but at this point moving Merrick is my main concern. I have lost sleep, suffered anxiety attacks, and gotten behind on work as I fret about the negative impacts of this development on Delaware's natural resources and my neighborhood.

I spoke at the one meeting Addison held with neighbors. I've signed petitions, written numerous emails, attended multiple meetings with neighbors trying to be heard by the decision makers of our city. I've attended meetings of the planning commission, the shade tree commission and city council meetings trying to ensure the concerns of those of us in the impacted neighborhoods are not forgotten.

I don't know what else to do to stress how important it is that the city require Merrick be placed at least 70 yards from the back property lines of the existing homes on Executive Blvd., Woodhaul and Pinecrest.

Please do not allow Addison's preferred placement of Merrick Parkway to remain in place. Where Addison has drawn the line not only destroys the lower stream and tree corridor, but the quality of life for my neighbors, my family and myself.

Because Addison is one of the largest and most controversial developments in Delaware's history we respectfully request a fourth reading. Additional time will aid in allowing that all areas of concern are adequately addressed.

Thank you for your time and dedication to Delaware.

Sincerely,

Diane Mungovan
937 Executive Blvd.
Delaware, Ohio

February 13, 2022

Dear members of City Council:
Thank you for your dedication to the residents of Delaware and for helping carefully craft the future of our city.

In regards to the Addison Farms cases that you will discuss at your next Council meeting, I wish to reiterate my concerns. I draw your attention again to the requests I made at the public hearing:

1. Add a condition that establishes a minimum distance for Merrick Parkway next to existing properties in Shelbourne Forest. I would suggest 200 feet with trees and screening, as that is what would meet the community's request in our petition from September.
2. Revise condition #18 to have the multi-use path moved up by the road, and evergreens planted on the farm lane south of Merrick Parkway.
3. Look for opportunities for tree bank sites and pond relocation to fields.

In addition, I wish to elaborate further on concerns related to Merrick Parkway, the development's community impact and zoning, and specific issues with the PMU text.

Merrick Parkway concerns
You will recall that our number one priority has been to have this thoroughfare moved a significant distance away from existing homeowners' properties. In September 2021, 222 residents petitioned with the following statement as the number one priority item: "Move Merrick Parkway away from existing residences a significant distance, at least the depth of the adjacent lot."

Here are the approximate measurements for lot depth and the distance to Merrick Parkway:

- The average lot depth of adjacent lots in Shelbourne Forest is approximately 170 ft.
- The average distance to the Merrick Parkway right-of-way is approximately 87 ft.

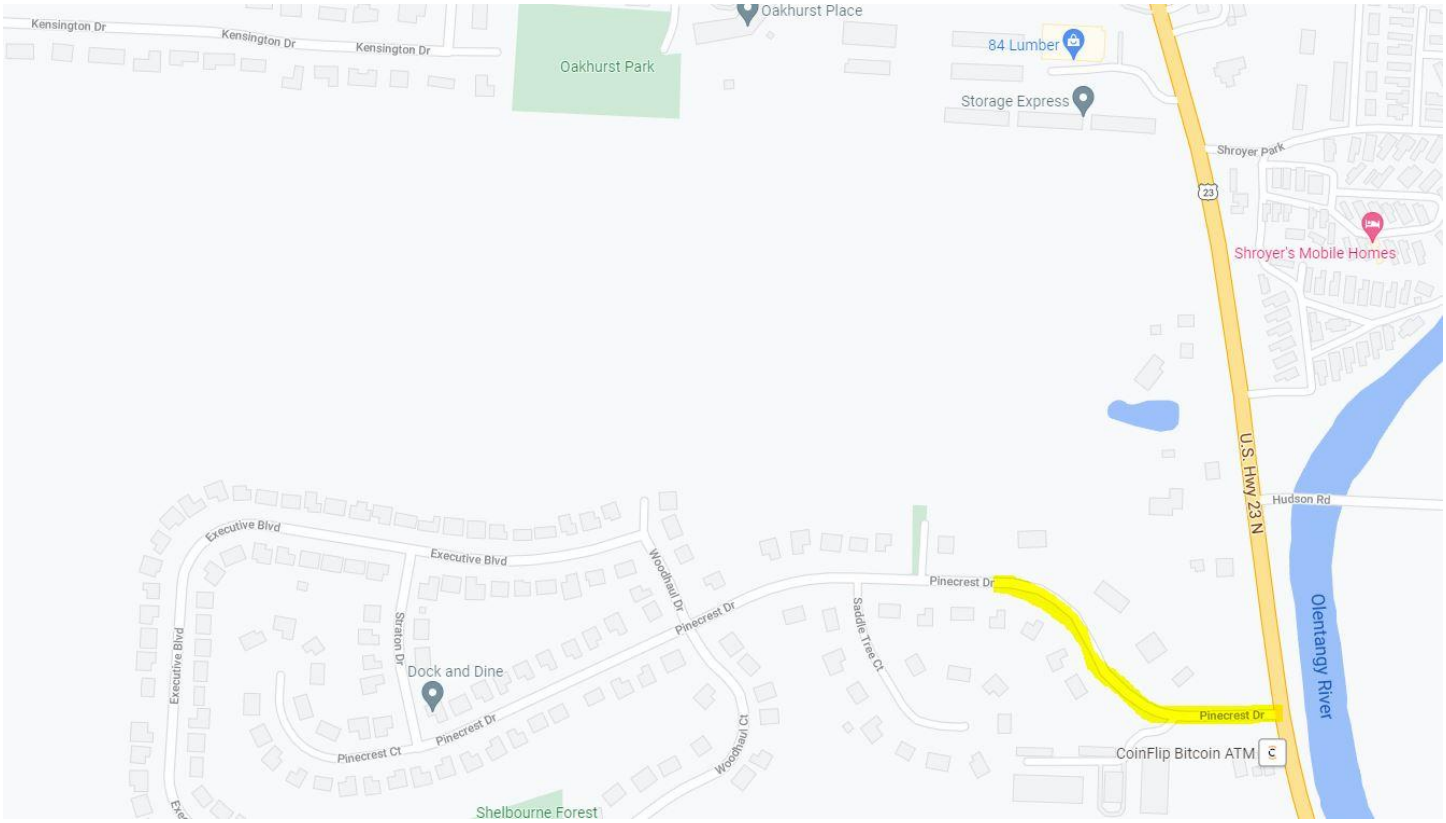

(Please see the table to the right for the individual measurements.)

Address	Lot depth (drive way side to opposite lot line) in feet	**Distance to Merrick (right-of-way) in feet**	***Distance to Merrick (right-of-way) in yards***

130 Pinecrest Dr	241	**20**	***6.7***
Average	169.9	**87.4**	***29.1***
	all measurements approximate		

Notes on the table data:
lot measurements from the Delaware County Auditor site (GIS measurement tool); distance to Merrick ROW from developer's exhibit showing measurements to pavement minus the 50' (as established previously as the difference between right-of-way and pavement measurements).

Based on these calculations, the current distance to Merrick right-of-way is clearly less than what we proposed in our reasonable compromise. For some of our residents, the right-of-way is only approximately 20 feet from the back of their property. All of the properties have Merrick Parkway right-of-way less than 150 feet away (that is, less than 50 yards from their lot lines).

I would also like to point out that members of the Planning Commission suggested having Merrick Parkway curve, making it match the alignment of Pinecrest Dr from US 23. I have highlighted that curve in the image below.

One must wonder: if this type of curve could be done for Pinecrest Dr, why not also for Merrick Parkway? Replicating the Pinecrest curve for Merrick Parkway will create more distance behind homes in that area.

You'll recall that many residents want to see Merrick Parkway moved to the middle of the development, that is 500 feet away from existing lot lines. Council must also consider that Merrick Parkway will function as an artery in our city and therefore have significantly more noise, light, and air pollution than a typical residential street. As confirmed by the NWACA study, once built Merrick Parkway will be utilized by tens of thousands of residents from as far west as Houk Rd. behind Kroger and connecting to proposed Bixby Parkway and continuing as a bypass to State Route 521 near Meijer. Merrick Parkway cannot be treated as just another residential street, and additional buffering and screening must be included as part of the plan.

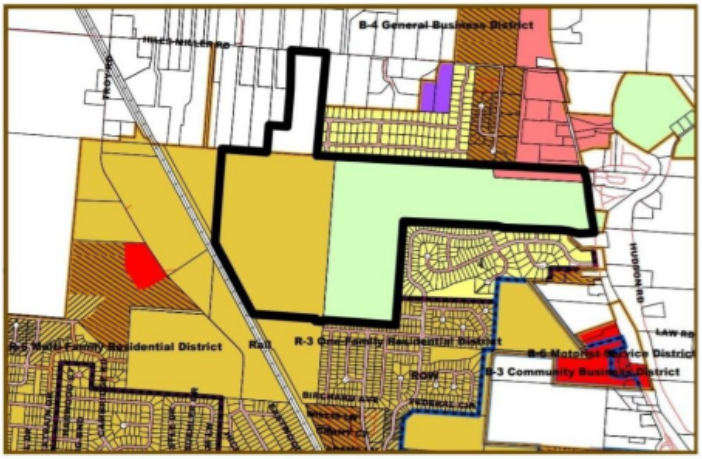

In the case of the residents on Pinecrest Dr, they will also have to deal with commercial uses near their properties on the other side of Merrick Parkway. Asking for the thoroughfare to be only 200 feet (66.7 yards) away seems like a big compromise on our part already. Is there some reason Addison can't move the road that far, at least? And that Council couldn't make this a condition for the development, so that residents can be assured Merrick Parkway will be a reasonable distance from our homes?

Therefore, as a neighborhood, we're asking our City Council members to add a condition that the Merrick Parkway right-of-way not be any closer than 200 feet to existing properties in Shelbourne Forest (883-999 Executive Blvd, 178 Woodhaul Dr., and 130-218 Pinecrest Dr.) and that the area between the properties and right-of-way be buffered with existing and additional trees and mounding. We believe this satisfies the conditions of the petition submitted in September 2021 (item #1), and after much discussion we find it to be a reasonable minimum distance.

Development's community impact and zoning concerns
The Addison Farms proposed development plan impacts a large number of existing residents. Over 200 families in Hayes Colony, Oakhurst, and Shelbourne Forest will feel the impact of this development based on the proposed roadways and traffic near their homes. Over 80 properties are adjacent to the proposed development, with 19 existing single-family homes next to proposed apartments and 28 next to the proposed Merrick Parkway arterial road.

The applicant is asking you to approve uses that represent a 175% increase in dwelling units and 446% more acreage allocated for commercial uses on their land. This is a significant increase over how the land was zoned when they purchased it. You can see the difference in the images below.

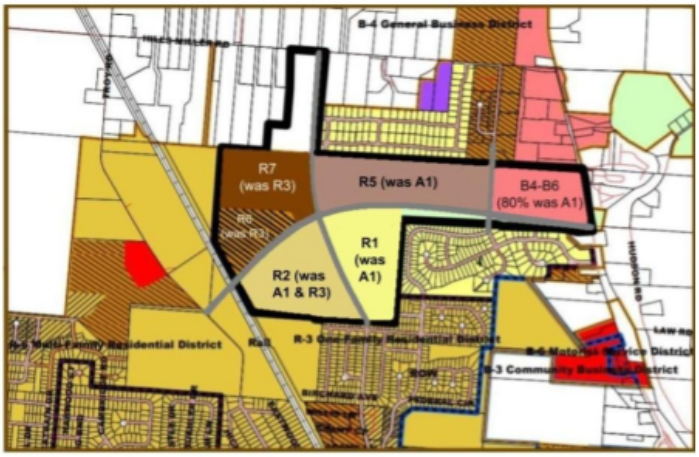

What was purchased

137 acres A1 (gross density= 0.2 DU/acre)
108 acres R3 (gross density= 4.96 DU/acre)

Total = 563 dwelling units
& 6.35 acres business/commercial

What's in the development plan

53.6 acres R5 (gross density= 5.9 DU/acre)
53 acres R1 (gross density= 2.7 DU/acre)
37 acres R7 (gross density= 10 DU/acre)
28.5 acres R2 (gross density= 3.4 DU/acre)
18.4 acres R6 (gross density=7.2 DU/acre)
Total = 985 dwelling units (175% increase)
& 28.3 acres business/commercial (446% increase)

(Larger image included at the end of the email.)

It is completely reasonable for our City Council to require the applicant to scale back on their increase in uses in order to provide appropriate transitions, buffering, and screening to existing residents as well as more preservation of natural resources.

PMU text concerns
If the PMU zone change is passed by Council, the Addison Farms PMU text will replace existing City zoning rules with all new requirements. Therefore, before voting, Council must carefully consider the PMU text, the

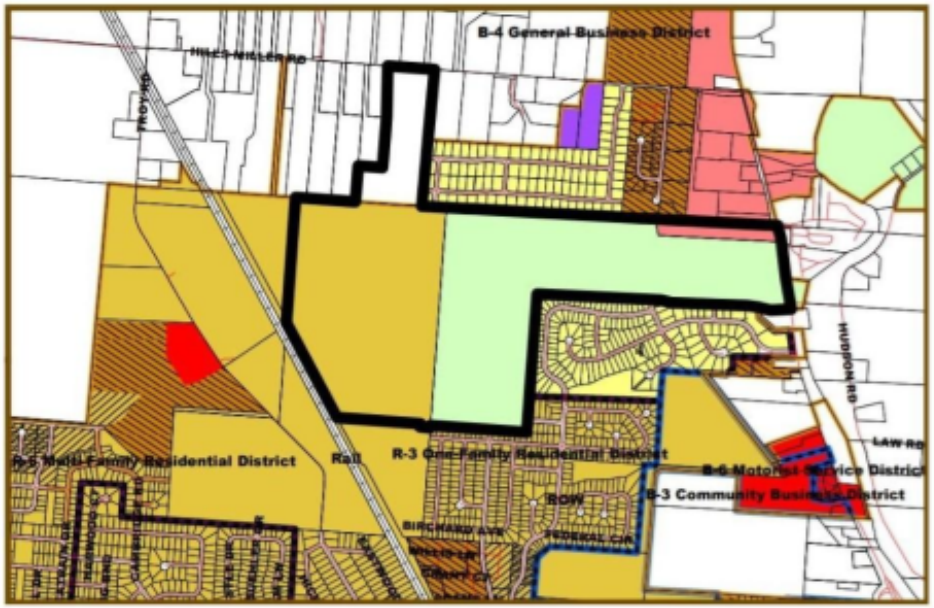

longest in the city's history, in addition to the other concerns related to the development. I would like to draw your attention to the following portions of the PMU text:

- The inclusion of a Bed and Breakfast use for all of Sub Area C and D is unnecessary. Why would this need to be done for an entire subdivision, rather than on an individual basis? Eliminate the blanket Bed and Breakfast uses currently included in the PMU text for those sub areas. [See Addison Farms PMU text p.42 and 44]
- Council should require that the development plan work around all large trees (36"+ diameter) without exception. Establish the trees' location and their future preservation by having them plotted on the development map, and make sure that the development is built in a way that ensures their preservation. [See page 15 of the Addison Farms PMU text.]
- Notably, the Addison Farm plan only includes 30% tree preservation in Sub Area E and 40% tree preservation in Sub Area F. Therefore, Council should look for more opportunities for planting replacement trees in the area, such as creating a local tree bank site south of Merrick Parkway and north of the lots on Pinecrest Dr in a portion of the existing field. Locations in nearby Smith Park may also make for appropriate tree bank sites in the nearby area, and this idea received support from members of the Planning Commission. Use the PMU text and/or development plan to establish tree bank sites in the area.
- Reduce or eliminate the amount of "minor modifications" permitted in the development. It currently allows a change of "less than 10% in the total number of dwelling units or any increase less than 15% in the non-residential building areas" to be done without full review by the City. An increase in 10% of the dwelling units would result in 98 more units; 31 of those would be in the already dense Sub Area E where the Redwood apartments are in the woods next to a stream. More apartments means less tree preservation in an area that already has the highest tree removal of any sub area. As proposed, a 15% increase in non-residential building area would amount to nearly 34 acres of commercial property across Sub Areas F and G, as opposed to the 6.35 acres of business district that was purchased by the applicant (an increase of 535% overall). Shouldn't changes of this magnitude require re-submittal and review by our review boards and City Council? Given the size of the development, a much smaller percentage seems more appropriate as a "minor modification." Please consider reducing the allowable increases to 1%, or (preferably) eliminating them altogether. The increase in size and scope of the development should remain part of the public process and subject to City Council's approval. [See Addison Farms PMU text p. 13]
- Narrow down the permitted and conditional uses in Sub Area F. The uses are too many and too varied, spanning 8 categories and 26 subcategories of uses and including such various uses as an 80,000 sq ft retail space and a 4-story apartment building. [See Addison Farms PMU text p.51-52]

Thank you for your time and attention to your residents' concerns.

Sincerely,
Stacy Chaney-Blankenship,
943 Executive Blvd, Delaware, Ohio 43015

2-14-2022

Dear Mayor Riggle, Vice Mayor Shafer, Members of Council, City Manager Homan,

I believe that people who have invested in their own home or condo should have the freedom to behave as responsible citizens. They should have the freedom to put solar on their own homes. Yet many HOAs and UOAs prohibit or impede owners from installing solar.

If we are going to get the climate crisis ship turned around in the next 20 years, we have to start turning the ship NOW. Given the current rapid expansion of Delaware and that the building that we are doing now will create the majority of the structures in use in 20 years, it is imperative that current regulations reflect that future reality.

I propose a **City of Delaware solar access resolution**, patterned after the solar relevant portions of the proposed Ohio SB 61, but without its conditional restrictions with regard to declarations and its overregulation of arrays that may not be visible. As both are currently composed, there would be no conflicts created by the differences in these documents. Specifically, I would propose a resolution that,

within **planned communities**:

An owner may install a solar energy collection device on the owner's dwelling unit or other location within the owner's lot if either of the following conditions apply:

- *The cost to insure, maintain, repair, and replace the unit's roof or alternative location within the lot is not a common expense of the HOA and is instead the owner's responsibility;*
- *The declaration specifically allows for and regulates the type and installation of the solar energy collection device within the planned community and establishes responsibility for the cost to insure, maintain, repair, and replace the device.*

An HOA board may establish reasonable restrictions concerning the style *and manner of placement of solar energy collection devices* if they are to be placed on the front of the unit.

And for **condominiums**:

Permits an owner of a condominium unit that does not have any other units directly above or below it to install a solar energy collection device on the unit's roof if all of the following apply:

- *The unit, as defined by the declaration, includes the roof. Unless the declaration or drawings state otherwise, a condominium unit is only the interior of the building;*
- *The cost to insure, maintain, repair, and replace is not a common expense and is instead the owner's responsibility;*
- *The declaration specifically allows for and regulates the types and installation of solar energy collection devices in the common or limited common elements and establishes responsibility for the cost to insure, maintain, repair, and replace such devices.*

A UOA board may establish reasonable restrictions concerning the style *and manner of placement of solar energy collection devices* if they are to be placed on the front of the unit.

*A **solar energy collection device** is a device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.*

[Italics denote language borrowed or adapted from Ohio SB 61.]

HOAs and UOAs exist, in part, to prevent one neighbor from diminishing the property value of another. Restricting solar is therefore a relic of the past, as solar increases property values. Regulations should not prevent us, as individuals or as a community, from solving mutual problems or from stepping into a better future.

Sincerely,

David Carpenter

From: Juliana Riggs
To: Stephen Tackett; Elaine McCloskey
Subject: Merrick Parkway
Date: Monday, February 14, 2022 12:44:47 PM

Caution! This message was sent from outside your organization.

Councilman Tackett,
Thank you for your continued work on behalf of your Ward 1 residents. Please forward this email to your fellow council members.

As neighbors in Shelbourne Forest, our number one priority has been to have Merrick Parkway moved a significant distance away from existing homeowners' properties. On September 1, 2021, over 200 residents petitioned with the following statement as the number one priority item: **"Move Merrick Parkway away from existing residences a significant distance, at least the depth of the adjacent lot."**

Here are the approximate measurements for lot depth and the distance to Merrick Parkway as currently planned:

- The average lot depth of adjacent lots in Shelbourne Forest is approximately **167 feet**.
- The average distance to the Merrick Parkway right-of-way is approximately **87 feet**

Based on these calculations, the current distance to Merrick right-of-way is clearly less than what we proposed in our reasonable compromise. For some of our residents, the right-of-way might only be ~20' from the back of their property. All of the properties have Merrick Parkway right-of-way less than 150' away (that is, less than 50 yards from their lot lines).

You'll recall that many residents want to see Merrick Parkway moved to the middle of the development, that is about 500' away from existing lot lines. We have reduced our ask by a lot. Council must also consider that Merrick Parkway will function as an artery in our city and therefore have significantly more noise, light, and air pollution than a typical residential street. In the case of the residents on Pinecrest Dr, they will also have to deal with commercial uses near their properties on the other side of Merrick Parkway. Asking for the thoroughfare to be only 165'-200' away seems like a big compromise on our part already. Is there some reason Addison can't move the road that far, at least? And that Council couldn't make this a condition for the developer?

I appreciate your consideration and action.

Juliana Riggs

Subject:	Addison Public Comments
Date:	Monday, February 14, 2022 12:59:54 PM

Caution! This message was sent from outside your organization.

We live at 165 Kensington Dr. and offer to following comments:

1. My wife and I support Mr.Bonofiglio's excellent e-mail that meticulous points out the damage that this "spot zoning" adversely impact Kensington Dr. and the entire Oakhurst neighborhood.

2. We have sent previous e-mails stating the sent back needs to be 120 feet or more because the water flow and flooding to the storm sewer through the easement in our backyard. When I was able I dug two ditches in the woods to help the water flow that has consistently flooded our yard. It went well beyond the proposed 60 feet; and , if the canopy of trees are removed the flooding will be even worse.

3. We respectfully oppose the PMU and the stub roads.

4. We request the Council allow a 4th reading of the Project due to its complexity and a rezoning that will seriously impact the Oakhurst residents forever.

Respectfully Submitted,

R. Larry Schneider

Subject:	Addison Project Rezoning Request
Date:	Monday, February 14, 2022 1:05:17 PM

Caution! This message was sent from outside your organization.

Members of City Council:

Our names are Matt and Julie Weller and we reside at 328 Sylvan Drive in Delaware. We are writing in opposition to the rezoning request proposed by the Addison Properties developer for the reasons that follow. Before specifying the reasons we oppose this development, however, I would ask that each of you frame your decision making regarding this matter in the proper legal context. It is irrelevant what you see from your own backyard; it does not matter what development is taking place in other parts of the city; and it certainly does not require a "yes" vote simply because multiple city departments and the developer have invested "countless hours" into the project. If the plan violates the Delaware Together Comprehensive Plan (The Plan) requirements, then it should be rejected at this time, or alternatively revised to comply with each provision.

Mr. Efland, the Director of Planning and Community Development, has stated that the Plan is not law, but rather "It is a long-term guide that expresses the values and aspirations of a community. It is the broadest public policy document a community can create." While it may not carry the force of a legal document, the provisions contained therein should be guiding principles for each of you. The Plan is a statement by the citizens of Delaware as to what type of development they desire and how any future development should mesh with the existing homeowners in our great city. The Plan is not something to be cast aside simply because of the fact that Merrick Parkway will be completed as a result of a yes vote. Our residents have already provided you with their input on future development-to ignore the Plan is to blatantly disregard their aspirations. Thus, please frame your decision making on this matter solely through this lens.

Specifically, we are requesting a fourth reading of this proposed rezoning request due to the complexity of the project. Additionally, we are opposing the opening of any "stub" roads within the Oakhurst subdivision (or at least until Heritage is done and a traffic study is completed). We are also in support of an increased buffer for both the Heritage and Kensington property lines. In regards to the latter point, I would propose that the 10 acre parcel that was eliminated from the east side of the parcel immediately south of Kensington, be utilized as the buffer zone for the latter property as well as the northern Heritage extension. Alternatively, placing "like housing" bordering the Kensington and Heritage extension properties would solve this problem. This would require a pivot of the multi-family housing currently proposed for this area to another, further western, portion of the development.

As stated so eloquently by my neighbor, Tony Bonofiglio, we are also opposed for the following reasons.

In reviewing "The Plan", we noticed for example, on page 42 (Exhibit 2) in the Development Context section, it indicates that an Infill development "requires sensitive design guidance to ensure compatibility in character with surrounding buildings". Further on page 44 (Exhibit 3) of "The Plan" in the suburban edge development section it indicates the following two guidelines:

“When development occurs adjacent to existing development an appropriate transition is needed and adjacent lots should be consistent in use and size. Smaller lots or more intense uses may be located in the interior of the development.” and

“While accommodating development, preservation of (or mitigation of) impacts to significant environmental features, wetlands, streams, large stands of trees, and the like (where appropriate) is expected.”

Why is the City’s Planning and Community Development Department and Planning Commission not holding this developer accountable to “The Plan” in relation to Exhibits 2 & 3?

The Addison Farms development plan seems to have the carrot that the city is looking for and that is the installations of Merrick Parkway and Heritage Boulevard. Yet when it comes to housing and the preservation of natural resources, the Addison proposal does not seem to hit the mark.

On page 112 (Exhibit 4) of “The Plan” under Objective A.2 titled “Encourage quality, higher density development in selected locations” within this objective it states: “However, in order for higher density development to integrate into the existing environment, it will be critical that it is located so as to not adversely impact existing single-family only neighborhoods.” As City Leaders and Council has witnessed since the first announcement of the Addison Farms development in July 2021 the concerns of tax paying residents of Hayes Colony, Shelbourne Forest, Oakdale, and Oakhurst do not believe the Addison plan is hitting the mark.

For example, in Sub-Area-E specifically when it comes to “The Plan” Objective A.2, Action A.2.1 (Exhibit 5) and it states: “In addition, mixed-use Activity Centers (nodes within or adjacent to existing development) can be appropriate for higher density if edge development conditions provide a buffer with single-use residential areas and design is of a high quality.” What is being proposed in “SUB-AREA E” is 53 acres/315 one-story multi-family units. Action A.2.2 of “The Plan” (Exhibit 6) states: “Create guidelines to be applied to any locations where higher density is allowed that demonstrate how it can be integrated without adversely impacting existing lower-density areas.”

Objective D.4 (Exhibit 7) of “The Plan” states: “Maintain and protect housing values and character.” It further goes on to say that “Current and potential future residents of Delaware desire to live in neighborhoods that retain high quality housing. This is important both to maintain housing values and to preserve existing character.” Action D.4.2 (Exhibit 7) under this objective states: Discourage unsympathetic changes to successful existing neighborhoods. The preservation of existing housing stock that contributes positively to neighborhoods, especially in areas with a high concentration of attractive housing like the Northwest Neighborhood, should be a priority. New construction that is vastly different in scale and/or character should be avoided.

Why is the City’s Planning and Community Development Department (PCDD) and Planning Commission not holding this developer accountable to “The Plan” in relation to Exhibits 5, 6 & 7? Why is the City’s PCDD and the Planning Commission allowing a 53 acre 315 one story multi-family development adjacent to a lower-density single-use Oakhurst area? How does the City’s PCDD and the Planning Commission believe Oakhurst property values are not going to be impacted by a 53 acre 315 one story multi-family development? Once again how does this fall in line with Exhibits 2 & 3 of “The Plan”? An 8-foot mound with trees atop of it does not sound like the appropriate solution. How does the Addison Development Plan meet Objective D.4 (Exhibit 7) of “The Plan”? Why does the Addison Development Plan not provide residents on the eastern edges of Executive Boulevard, Pinecrest Drive and the western edge of Oakhurst with like properties adjacent to them as outlined in Exhibit 3?

Objectives E.3 on page 199 (Exhibit 8) and E.4 on page 203 (Exhibit 9) of “The Plan” state: “Preserve natural environments. Through a combination of managing new development and pursuing policies and programs, the City should seek to preserve natural environments and the habitats they support. This should be pursued while connecting and integrating them (where appropriate) to the larger community network.”

“Enhance the urban tree canopy. Delaware benefits from an urban tree canopy in many locations that provides aesthetic value, contributes to shade, reduces the urban heat island effect, provides stormwater benefits and provides natural habitat. Improvements can be made to the urban tree canopy in key

locations."

How does the Addison Development Plan meet Objectives E.3 (Exhibit 8) and E.4 (Exhibit 9)? Once a large portion of the existing tree canopy is removed it may take a century for it to recover. The existing natural resources and tree canopy should be incorporated into the overall development plan design.

I ask Mr. Efland, why do we have a Delaware Together Comprehensive Plan when the first development that comes along after the adoption, we disregard all the key tenants of the "The Plan" that are designed to incorporate with the existing neighborhoods and preserve natural environments and enhance urban tree canopies?

In closing I would like to say we tax paying residents of Hayes Colony, Shelbourne Forest, Oakdale, and Oakhurst have continued to express our concerns and the developer has made token adjustments to his plan. I am not averse to future development and have understood that to be a possibility since the purchase of our home in 2005. My concern is the City is not following the tenants outlined in the Delaware Together Comprehensive Plan. This plan can be so much better by following the tenants outlined in "The Plan". Yet this plan has no resemblance to all the exhibits included in the communication. Is this the manner in which the City intends to move forward when it comes to development? Disregard "The Plan" and acquiesce to the wants and needs of the developer. The vision seems a bit short sighted and not in the best interest of the community.

Please consider our concerns in making any decision on this rezoning request.

Matt and Julie Weller

Subject:	Addison Farms 2/14 council meeting
Date:	Monday, February 14, 2022 1:13:41 PM

Caution! This message was sent from outside your organization.

Hi,
I am a concerned citizen and am writing about a couple of those concerns regarding the Addison Farms development proposal. First, I think it would be useful to allow public comment at tonight's meeting. Second, I am requesting a 4th reading due to the complexity of the project.

My primary concern is that like buildings be built by like buildings. Rental properties should not be built next to existing housing. Rentals are rarely cared for as well as most houses, especially fairly expensive housing like we have in the Oakhurst neighborhood. Buffer zones are nice, but they aren't as good as like housing next to like housing. The acreage is big enough for rental properties to not be built near existing housing and potentially reducing their value and therefore the value at which they are taxed. Anyone purchasing a new home in the Addison development would know from the beginning that rental units are next door.

Second, I object to opening the stub roads at Sylvan Drive and Kensington Drive. Allowing the trees to stay both supports Delaware's designation as a tree city, but also means that the city has less road to maintain. Emergency services have stated that it makes no difference to them. It would also prevent 3 (and in one case 4) road frontages for the homes on Hope Lane. Extending Hope Lane to the new Merrick Parkway is desirable since it will provide a 2nd way to get in or out of the Oakhurst neighborhood.

Thanks for your consideration,
Becky Wolff and Bill Echols
298 Sylvan Dr.
614.359.3709

2. Request a 4th reading due to the complexity of the Addison Project
3. The Addison Project does not comply with the Comprehensive City Plan Legislated May 2021
4. Request public comment for 2/14 City Council Meeting
5. Oppose opening of stub roads in the Oakhurst Development (or at least until Hertitage is done & a traffic study is completed).

Subject:	For Public Comment - Delaware Addison Development
Date:	Monday, February 14, 2022 1:27:58 PM

Caution! This message was sent from outside your organization.

My name is Julie Weller and I live at 328 Sylvan Dr, Delaware, OH. I am writing in opposition to the Addison Property request for rezoning. I would urge City Council to hold a fourth reading and include public participation of this complex issue.

The City's Comprehensive Plan (The Plan) calls for like housing to be situated next to current housing. The current plan for Addison is in violation of this aspect of the Plan. Would the Addison developers consider switching Sub Area E (53.0 acres of apartments)and Sub Area D (53.0 acres of single family homes)? This swap of areas would still allow the developer to have both single family homes and apartments in their development but, more closely align with the Plan.

Julie Weller
328 Sylvan Dr.

City Council Representatives,

We have been steadfast in voicing our concerns for over 6 months with the Addison Development. We were reaching out to our previous councilman, Chris Jones, prior to him resigning and spoke with Stephen Tackett before he was our councilman regarding the property. We have remained consistent in our asks to council and the planning commission and find it extremely disheartening that our representatives have not taken our concerns into account but are more concerned with an outside developer who will provide the 'Great Merrick Parkway'. Addison will not be here while your residents deal with the ramifications of our council representatives bowing to a developer. We will have higher taxes, we will have our kids in overcrowded schools that will impact their education, we will have to deal with roads that will not be upkept, we will need to deal with congestion and overcrowded roads, we will need to deal with frustrated motorist cutting through our neighborhoods (most likely at a higher than posted speed limit) to get where they need to go because the roads/stop lights are a mess. All of this for something your residents do not even want.

Although several concessions were made to accommodate Shelbourne Forest, little has been done to accommodate the residents of Oakhurst, if anything it has gotten worse. Oakhurst has asked for easy fixes during the duration of the proposal.

1. **Oakhurst requested to not have the stub streets opened**. Oakhurst has been a single-entry neighborhood for 50+ years. We were told the roads should be open for emergency access. If this an honest true statement, then please install the flexible bollards that can be run over by emergency vehicles and bounce back. These have been installed at entrances of Abbey Knoll (off S Old State) and Stockdale Farms (off Braumiller) to single out a couple. If they are good enough for those developments, then Oakhurst should also receive them to not allow cut through traffic into the neighborhood and provide safety to our/your residents.

The image below is from the Stockdale Farms development.

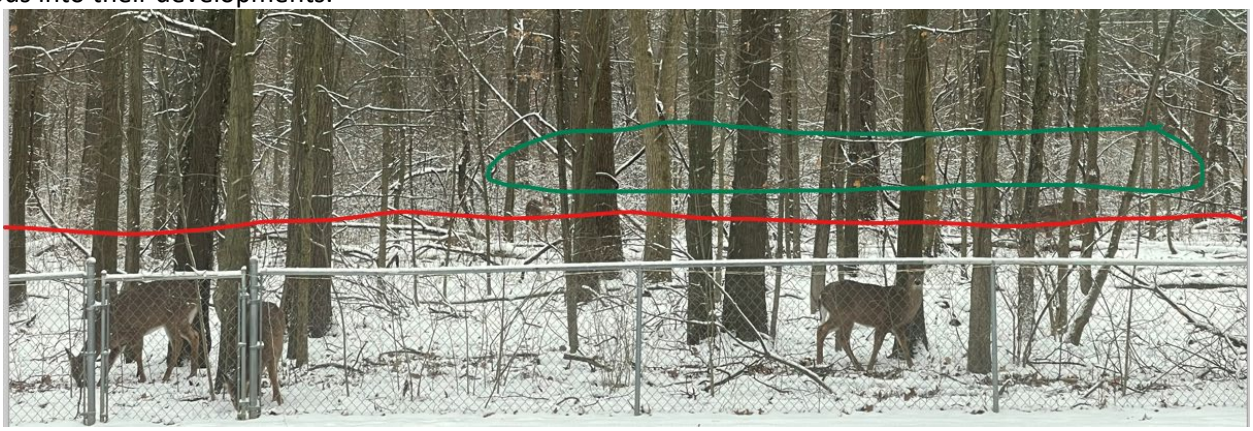

2. **We request again to please have Addison move the apartments to another area of the 270+ acres.** <u>This decision resides with YOU, our city representatives, not Addison</u> saying that is where he wants them and won't change it. We have been consistent in our request to have like housing by like housing as approved in the Comprehensive Plan. Addison bought Seikmann's property knowing the zoning. If the city will change the zoning for Addison, then at least force him to put the apartments elsewhere and provide some consideration to your actual residents and constituents. We find it extremely disheartening and callous that council will allow apartments to be built between two existing single family residential neighborhoods, removing so many trees and decreasing the value of our homes.

To show what the residents of Kensington will lose, I took a couple of pictures over the weekend to emphasize that what is behind our homes is special and cannot be found in other neighborhoods in Delaware. To have all this gone and instead stare at apartments is unspeakable. This is a small group of the deer that live behind our homes. They have a routine that affords many of us a chance to look upon them and enjoy their presence. That may seem quirky and silly to some who are more concerned with 'progress', but it is a truth.

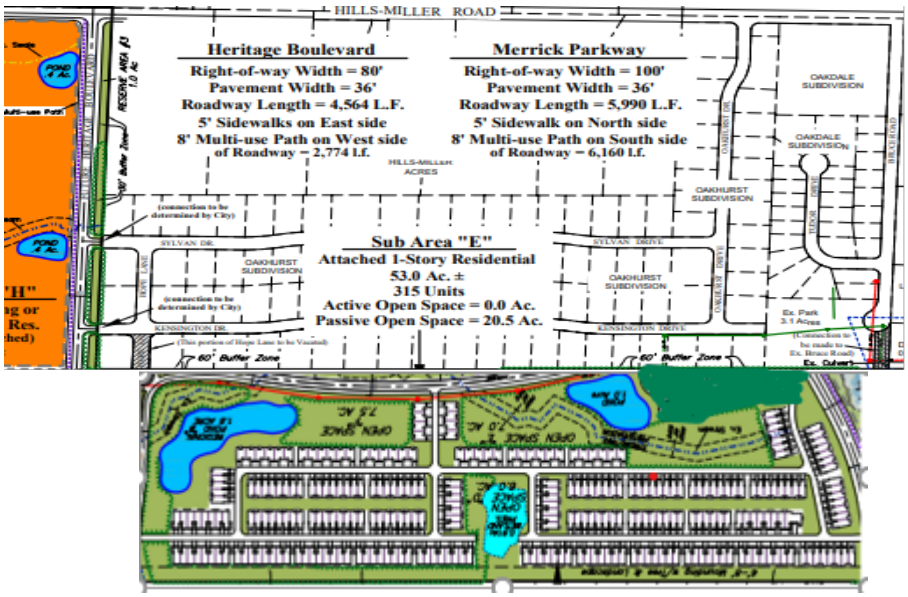

The green area of the picture - where there are two deer in the background - is where most of them rest in the brush. As you can see, this is behind the red line. It is devasting to me and my neighbors to realize that this will all be gone and could have been prevented by forcing Addison to provide more natural areas and to move the apartments to a different area. Several subdivisions have accommodated the woods into their developments, including Springer Woods, Stockdale Farms and Terra Alta. Oakhurst, Shelbourne Forest and whatever new subdivision - not apartments - that will be placed behind our homes, should also be required to accommodate the woods into their developments.

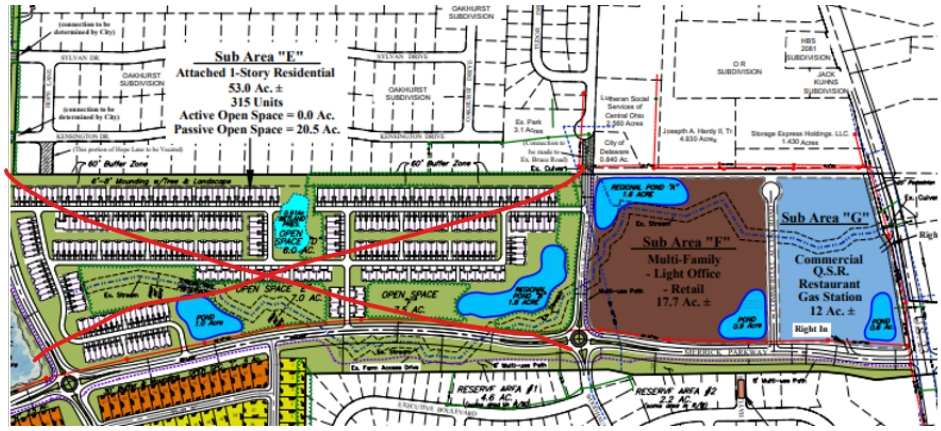

3. Addison should provide more of a buffer to the residents of Oakhurst/Kensington Drive. As currently planned, residents on Kensington Dr are being provided 60 ft, the residents of Shelbourne Forest are being provided 100 ft. Oakhurst deserves to have a 100 ft buffer as well and to have the apartments placed closer to Smith Park. Oakhurst should be provided with their existing trees and the acres of green space and ponds noted on the proposal – why provide these to Merrick Parkway?

If council will not have Addison move the apartments, at minimum the plan should be flipped to provide your residents with a decent transition space between the unlike housing as depicted in the picture below. This will also allow Oakhurst Park to provide additional green space for our kids and the residents of Oakdale.

NOT:

As stated previously, we are not opposed to development, but we ask you to fully consider all aspects of Addison's proposal and its impact on existing neighborhoods and the city as a whole - not simply to get a road built. **All of you can do what is right for your residents** as you vote on rezoning and what will be placed by your neighbors' homes. Again, we are asking for your to please put priority on the needs of your residents and not Addison.

Respectfully,

Maureen Molina
185 Kensington Drive
Delaware, OH 43015

- As submitted in email 1/23/2022

Dear City Council Members,

I am respectfully requesting Council to have a working session and a fourth reading to adequately address your residents' concerns and to please allow the residents to know the outcome of the working session prior to voting. This is critical to such a large complex development that will have a damaging lasting impact to our city and the residents.

As a family on Kensington Drive in the Oakhurst neighborhood, I am imploring City Council to add conditions to Addison's Development plan to ***ensure the developer is required to make concessions*** and not the residents of Delaware City.

Please help Oakhurst obtain the below conditions:

1. The area between the properties on Kensington Drive and Area E ***must be buffered*** with the existing trees, new additional trees and mounding **not to be closer than 200 feet.** Please provide an acceptable transition between our backyard and the new development, 60 feet is not an acceptable transition between an established single family neighborhood and the proposed multifamily new development.

2. If the new development, regrettably, be multifamily apartments, please require the developer to build single story structures.

3. Oppose the opening of stub roads in the Oakhurst neighborhood, as Bill Ferrigno stated that extensions on Hope Lane would be 'overly redundant' to the other planned connections at Sylvan and Kensington.

The connections at Kensington and Sylvan are also 'overly redundant' as they are a block apart that go into the same neighborhood and arguably should be for the residents of Oakhurst neighborhood

The argument may be that no one will use it as a cut through – may I present this example:

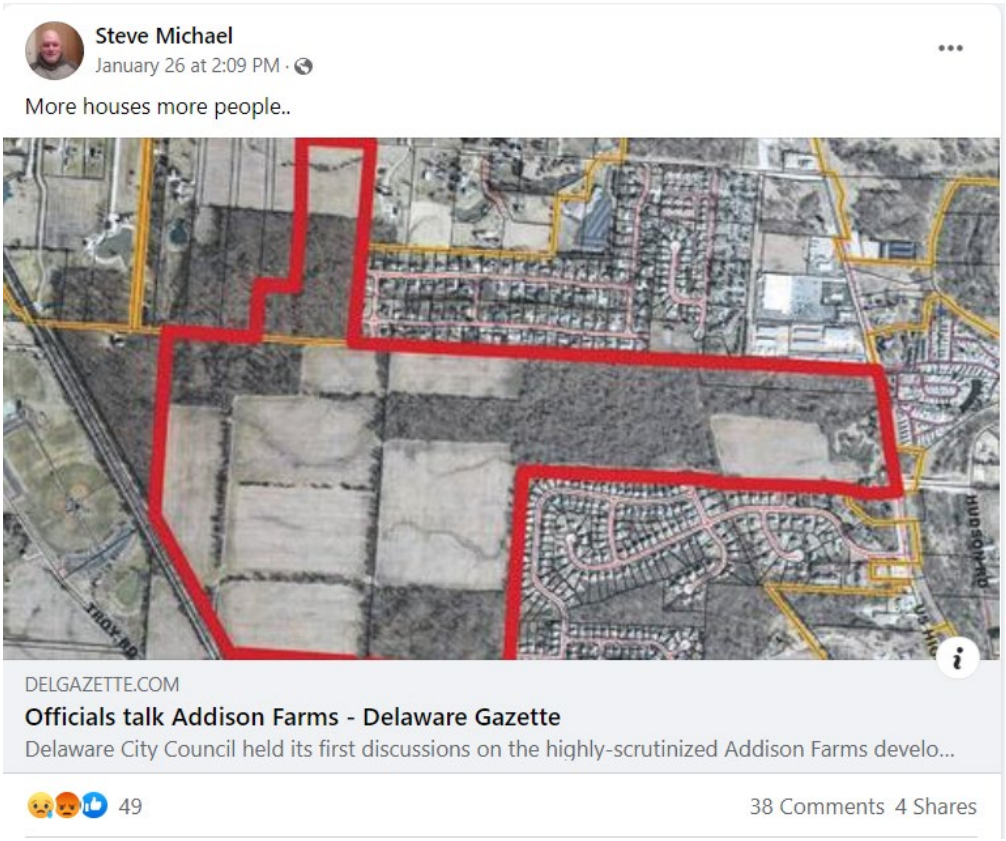

You are driving up the new Heritage extension and see that there is a line of cars waiting to make a left on to Hills Miller; you are late and need to get to 23; you make a right into the Oakhurst neighborhood that has no sidewalks and end up hitting someone. If you are running late, it is inherent in nature to find a quicker way to get where you need to go and you will inevitably also be going faster than you should be going.

Below are examples of other Delaware residents' comments on the Addison Development from the What's Up Delaware Facebook page. I have removed their names, but you can find the information on the post.

I think it is important to note that it is not just the residents who are directly impacted by this development, but also your Delaware constituents that are fed up and the appearance of disinterest in their concerns by Council.

Respectfully,

Maureen Molina
185 Kensington Drive
Delaware, OH 43015

[redacted]
With all the additional housing, should property taxes eventually go the other direction? Delaware leaders are out of control. Where does it stop. How many are aware of the huge development on Braumiller? What a cluster that will create coming off of Pollock road. $$$$$ is all they care about

Like Reply Share 2w 2

[redacted]
My husband has pointed out that the heavy truck traffic in Delaware has absolutely no control. The trucks traveling all over the rural roads from that quarry have destroyed roads without anyone caring. Why are all the Semi's allowed to travel on most all roads and not prohibited through 1/2 of the county roads? There should be load and weight limits and roads where these vehicles are not allowed. This comes down to poor management at the city government level. Go to the source of the road damage, because it isn't being caused by regular sized vehicles. When will they stop these road wreckers from destroying the roads?

Like Reply Share 2w 4

[redacted] actually there are weight limits on rural roads. I know this from driving a dump truck it's just most heavy equipment operators don't obey them. Another problem is semi trucks follow their GPS which most times take the the fastest route. It is definitely a problem when these big vehicles try to run 55mph on a road barely big enough for small cars and run you off the road. The drivers are getting younger and no experience because the old experience drivers are retiring !

Like Reply Share 2w 1

[redacted]
Agreed. TERRIBLE idea. What are the powers in this city thinking? More tax $? The schools are so overcrowded that lunch at the high school starts at 10AM. The roads are a joke. Yet we pay one of the highest property tax rates around.

Like Reply Share 2w 12

[redacted] high school lunches started at 9:40 in 2007. Definitely not improving the crowding situation!!

For public record 2/14/2022

Members of Council,

We are asking that tonight not be the final reading of the Addison Development plan because we feel there are still many parts of this plan that have not fully been addressed.

We, the residents of Oakhurst neighborhood, have asked many times and are still awaiting an answer as to why taxpayer money and time was spent to create the Comprehensive Plan if you are not going to be held to following it. Specifically we have asked why the plan says that in an infill situation-such as between the Oakhurst and Shelbourne Forest neighborhoods-like size homes/lots should be constructed. An apartment complex, single story or not, is not a home of like size to our zoned R-1 neighborhood.

While we prefer, and should have according to the Comprehensive Plan, single family homes behind us on Kensington Dr, what guarantee is in place that these would be high-value apartments? Since the beginning, the applicant has said they would be Redwood Apartments. In the January meeting, he changed it to Redwood "or something similar". What is stopping him from getting apartment approval and later making a deal with a cheaper rent apartment company thus driving down our home values?

As a resident close to the Hope/Kensington stub road, I have serious concerns for not only driver safety but also the safety of my children whose bus stop is at the corner. While there is sidewalk at the corner, my children walk in the street to get to that corner. An increase in traffic without a sidewalk to walk to the bus stop is unsafe. Also, the lighting plan of the neighborhood will need to be addressed as lights are few and far between and also very dim especially at 6-7am in the winter while children are waiting for the bus.

We are asking that Heritage Road be moved at least to the center of Pod H if not to the other side to avoid a triple-frontage lot for residents in Oakhurst. Along those lines, we are also asking the stub roads of Sylvan and Kensington NOT be opened until such a time when normal traffic patterns have been established on Heritage and a true traffic study can be done on the impact to our neighborhood.

While we appreciate the changes that have been made since the beginning of this plan, the changes have impacted and bettered the residents of Shelbourne Forest only. The residents of Oakhurst are still looking at massive amounts of backyard trees removed, a mound constructed that will potentially flood our backyards, apartments that are directly against the Comprehensive Plan and opening our neighborhood to thru traffic. While we knew we wouldn't have farmland surrounding us forever, we thought a developer who claims to want to work with surrounding residents would actually work with us, not against us.

Thank you for your consideration in voting for a fourth reading on the project.

Subject: Addison Farms
Date: Monday, February 14, 2022 2:33:27 PM

Caution! This message was sent from outside your organization.

FOR PUBLIC RECORD:

Dear City Council Members,
Due to the complexity of the Addison Farms cases and the number of issues that still need addressed, I respectfully ask Council to have a fourth reading of the related ordinances.

Shelbourne Forest:

As a neighborhood, we're asking our City Council members to add a condition that the Merrick Parkway right-of-way not be any closer than 200 feet to existing properties in Shelbourne Forest (883-999 Executive Blvd, 178 Woodhaul Dr., and 130-218 Pinecrest Dr.) and that the area between the properties and right-of-way be buffered with existing and additional trees and mounding. We believe this satisfies the conditions of the petition submitted in September 2021, and although not a perfect solution and quite a compromise for those who anticipated this arterial road would be in the middle of the development, after discussion we find it to be a reasonable minimum distance.

Oakhurst points:

1. Oppose the PMU in its current form for Addison Properties
2. Request a 4th reading due to the complexity of the Addison Project
3. The Addison Project does not comply with the Comprehensive City Plan Legislated May 2021
4. Request public comment for 2/14 City Council Meeting
5. Oppose opening of stub roads in the Oakhurst Development (or at least until Heritage is done & a traffic study is completed).
6. City to provide sidewalks for the 2/3rds of Oakhurst Development that does not have sidewalks currently installed if the stub roads are opened.
7. Expand Buffer along Heritage Blvd to 120 feet consistent with general buffering in the Addison plan and give 120 feet to the Kensington property line to buffer sound & water mitigation.

Please consider all the aspects that have made Delaware such an amazing community, one that we love, and don’t allow developers to bring those high standards down. Thank you.

Caution! This message was sent from outside your organization.

Thank you for your time and consideration.

I have three main concerns: natural resources, location of Heritage, and compatibility of lots next to Hayes Colony, and some additional questions.

Tree Preservation/Natural Resources
The 50% policy for PMUs is not working. Code requires 100%. PMUs forgive tree fees in exchange for other "benefits" to the city. This is not appropriate use of our natural resources. 50% may be appropriate for a parcel that is entirely wooded, or for locations that do not adversely affect the watershed, but it is not appropriate on parcels like this where the developer is able to work around large stands of trees and other natural resources. The City should also be following it's own policy and accounting for destruction of natural resources by public infrastructure. 50% has been used in the past on other PMUs, however, they were in focus areas for development and/or started with a higher percentage of tree cover. One of the advantages of a PMU is that the City is able to look at each project on a case by case basis and tweak it as needed. If we are consistently applying the 50% policy, this is not following the flexibility intent of PMUs. If the City is concerned about defensibility, tree preservation should be put up front in the agreements and pre-agreements with the developers. Items from the thoroughfare plan, and the ped and bike plan were included in the pre-agreement, why not items from the Parks and Natural Resources Plan, the Greenways Plan, and our City's tree canopy goa? Then, to be eligible for the PMU the developer must comply with the communities natural resource goals. The City needs to recognize the importance of our natural resources. We have natural resource goals that have been on the books since the early 2000s and the City never acts on them. Until action is taken, the City will continue to squander away Delaware's character.

Also, Street trees do not make up for large stands of trees and are actually a safety hazard. Trees are the single most commonly struck objects in serious roadside crashes. In the US, vehicle collisions with trees account for more than 4,000 fatalities and 100,000 injuries each year. The City should be reviewing it's street tree policy and requiring more trees to remain on site where they can be safely placed outside of the clear zone. Check out FHWA's guidance on "Safety and Trees: The Delicate Balance" for more information.

If the City will not take the Community's tree preservation concerns into account, then we

must do it ourselves. Residents on the 500 block of Rutherford Ave., are interested in purchasing agricultural land adjacent to our homes for conservation. Please encourage/require the developer to offer to sell this property to existing residents whether individually or as a whole prior to rezoning it from A-1. This will save thousands of inches of trees, eliminate a segment of street that only provides housing on one side, and save high priority forested land to protect the watershed.

Heritage

It was stated that Merrick has been on the TF Plan for 20 years. When was Heritage added? Have other alternatives been explored before? Is the intent to connect Hills Miller to Hayes Colony or to Pennsylvania Ave?

Hayes Colony

Lots are matching "typical" lots in Hayes Colony. This does not match the existing perimeter lots. The average lot size is 8,500 sq. ft. with 71' width. The typical side setback is 12'. Please match. The average house size is 1809 sq. ft. and ranges from 1550-2088.

Additional questions

1.
2. p. 222 How will active and passive open spaces permanently preserve environmental features?
3. p. 226 - When was Heritage added to the thoroughfare plan? is the intent of the Heritage connection to connect Merrick to Hayes Colony? or is it to connect Merrick to Pennsylvania Ave? Are there other alternatives that have been considered?
4. p. 227 - How has the signal coordination timing plan and workforce shift to more WFH affected the LOS of West Central Avenue. What is the AADT and the V/C? What is the clear zone for a 25mph and 35 mph? Will the street trees be planted within the clear zone? is that a hazard?
5. p.228 Taylor Ave. acceptable with termination in new cul-de-sac constructed by Addison- Will this be a "T" turn around to minimize footprint?
6. p. 229 when can we expect the pedestrian access to Smith Park to be completed?
7. p. 230 - "Responding to public comments for limited playground space in favor of passive space which can be activated with multi use and gravel/stone pathways, the proposed plan reflects this as well as adding a playground area in Open Space J." If this is regarding my public comment, I'm not saying to not include a playground, rather a playground can be in the wooded area. Think natural playground, rope swings, slack lines, balance logs, stick forts.

8. "The amount of open space in all the sub-areas is documented in the development text with a minimum 20% of open space except for sub areas F & G which is a minimum of 5% because the uses in these sub areas will exceed the minimum percentages in the development text primarily to protect and step back from the existing stream corridor running through these areas." What is the open space % in F & G? At lease 20%? The developer bought 6 acres of B-4. The city is looking at allowing 30ish. Surly he can work around the natural resources. Perhaps 5% applies to the by-right portion and 20% applies to the remainder.
9. p. 231 - Tree preservation goal is 50%.
10. The total preliminary acres of trees preserved in G & H is 9.75. How does this compare to the 5% open space requirements?
11. Why is the developer requesting a 50% discount on what he calls a "fair tree"? What is the definition of a good tree vs a fair tree? Who made that determination? There were very few notes on "fair trees" on the tree survey.
12. "Adding the additional payment per lot and additional trees to be planted per dwelling unit per Text gives a net total in caliper inches of 29,829 preserved, payment in lieu, and or additional planting - or slightly above 50%."
13. Developer is proposing 500/200 per DU tree fee compared to 800 that was approved for straight zoned parkview and compared to 3425600/985du= $3478 straight.
14. 46% is not 50%. The developer is not even preliminarily reaching the tree preservation goal. 4% of the 118.9 treed acres is 5 acres. We need at least 5 fewer acres of trees destroyed.
15. Should credit be given to Reserve areas 1-3? Will this be city property? The developer is not taking responsibility for trees removed in city r/w. Staff commented on p 227 that the amount of clearing and grading adjacent to Merrick cannot be determined at this time, but it is safe to assume that there are areas that will be graded across the entire r/w and potentially even beyond that to construct the road.
16. The developer is proposing to exempt all city required infrastructure from preserving trees. Delaware Together mentions possibly considering this. Is this appropriate based on community goals and concerns and tree canopy goals?
17. Staff recommends no changes to the tree removal and preservation development text. Similar to other approved planned developments, consistent with Delaware together (A.12.3 & E.4.1), recent court case, enhanced defensibility. What are the percentages of other PMUs, TPZs, Tree fees?
18. If tree fee is capped at $500 then more trees must remain on site.
19. P. 242 pedestrian crossing to Smith? When can we expect this?
20. Historic maps have designated the Rutherford Woods and portions of the Merrick Woods as significant wooded areas since 1965.
21. Should the acreage shown for the retention ponds be included in the open space calculation?
22. Is this area a focus area for development?

23. What is the criteria for development outside of a focus area?
24. How has Addison met this criteria?
25. Are there any areas that are not meeting?
26. Development text is giving preservation credit for removing Ash trees? Why?
27. P. 354 places street trees along US 23. Will ODOT allow this?
28. I counted 368 signatures on the petition to preserve natural resources within the Addison Property.

Thanks,

Jennifer Jenkins

Subject: Addison project

Caution! This message was sent from outside your organization.

Dear Ms Harris and City Council,

I would like to address my concerns regarding the Addison development project.

1. I would like to request a fourth meeting as so many issues still remain. I live at 343 Kensington Dr. A corner lot at the end of the street. The field is behind me to the south, the woods is to west and two stub roads border my north and east side

2. I'm concerned that an adequate buffer be extended between my yard and Heritage boulevard of at least 120 feet.

3. Another concern is if either of the stub roads bordering my property is opened, I will be surround by roads on three sides.

4. There are also concerns regarding sidewalks if any stub road is opened. I believe the prudent thing to do is not open any stub roads until Heritage is built and in use, then do a traffic study to determine the need.

Thank you for considering my input.
Mary Ann Parker
