for

Restroom and Splash Pad at Unity Park

Issue Date: July 16, 2024

Issued By: City of Delaware
1 S. Sandusky Street
Delaware, OH 43015

Do you have a budget for the project?
Our project budget for the splash pad and restroom is approximately $600,000.

Do you have a theme?
We do not have a theme for the splash however our goal is to design a splash pad that is appealing but sustainable. We will utilize a variety of surface mount spray nozzles and limit above ground features. The location of the splash pad is meant to serve the local community making it easily accessible for pedestrians.

What size are you envisioning for the splash pad?
We estimate the splash pad and seating area to be approximately 5,000 square feet. The scale will be appropriate to serve the community.

What is the anticipated age range that this splash pad would be catered towards?
The splash pad will be unsupervised, so adult supervision is recommended. All ages will be welcomed but the design should consider appropriate features to logically separate younger and older children without creating distinct areas.
