Subject: Gas leak - City Council agenda
Date: Monday, November 25, 2024 9:16:40 AM

You don't often get email from megsayre7@gmail.com. Learn why this is important

Good morning Sarah,

My name is Megan Beck and we just spoke on the phone about the unresolved gas leak issue on my street. We live in Delaware Meadows and our address is 10 Westland Way, Delaware OH 43015. The leak was reported by Columbus Gas to us as being at 23 Westland Way.

The leak has been going on for about 2 months and most days is very strong. The entire neighborhood can smell it and most of us have reported it to Columbia Gas multiple times. We have all been told by Columbia Gas that the issue is not urgent and they will fix it in about 6 months. That's unacceptable!! Our son has asthma. Our daughter has been complaining of headaches. We have multiple kids on the street that shouldn't be exposed to gas. There are also a lot of elderly people that live on our street that I'm sure aren't benefiting from the gas either.

All that being said- we are all tired of the fumes and we're all getting nervous about the exposure risks.

Thank you for taking my call earlier and being kind while I explained the situation. Can you please add this to the agenda for the meeting tonight and follow up with me for next steps?

Thank you,
Megan Beck
