You don't often get email from dinovopd@gmail.com. Learn why this is important

I would like to say that I am not in favor of the plans for the southwest corner of Sawmill Road and US-42.

While I don't disapprove of the concept itself, the location of this racetrack/amphitheater leaves a lot to be desired and truly hasn't been well thought out. I have lived on South Section Line Road for over 5 years and we are constantly contending with the noise and traffic from the dump trucks going to and from the quarry. It begins at 5:00 in the morning during summer hours and doesn't end until past 9:00. And it is constant. It is not unusual to count as many as 5-8 dump trucks in a row on S. Section Line Rd. at any one time. It is not just the noise that is constant, it is the dust from the gravel and tires that stay in the air. Section Line Road is a county road and wasn't built for the kind of traffic we have now. The intersection at Route 42 is often backed up since there are no turn arrows on Section Line-only on 42, which, of course, contends with all the semis traveling to either Route 33 or I-70. I can't imagine adding still more traffic to this already overused county road.

Additionally, Olentangy Schools has plans to build an elementary school off Bean Oller and west of Sawmill Parkway as well as a new high school on Bunty Station west of Sawmill Parkway which will increase traffic along the corridor of Section Line as well as Route 42.

I think there are better locations around Delaware that would be more logically suited for this endeavor.

Thank you.
