I understand tonight's meeting will include discussion on rezoning around 42/S Sectionline/Sawmill Pkwy to allow the building of a racetrack/hotel/retail/music venue. If this is the case, I would like to express great concern over the racetrack portion of this venue. The noise produced from this track will be heard in the surrounding community, impacting our quality of life in a negative way. Please consider rejecting at least the portion pertaining to noise.
Thanks!
