You don't often get email from apowell008@gmail.com. Learn why this is important

To whome it may concern,

As a long term resident of 20 years to Delaware Carson Farms area this projected idea for 42 & S section line is horrendous. Please, the community begs of you do not allow it. The community already has to deal with many loud noises CONSTANTLY from the quarry and deals with excessive house shifts from explosions from there. We deal with airport noises. We do not need anymore noises added to pur community's. Delaware also doesn't need any more traffic restrictions to our area. Please find a new and better location and for the love of God Preserve more of our farm land and stop with the excessive building.

Thanks concerned resident
