Honorable Council Members

I am against a proposed zoning change for the above listed area as shown in my subject line.

I am a lifelong Delaware county and city resident. There is a family farm nearby to this area.

The Facebook posting by the City of Delaware shows a 2/24/2025 council meeting agenda. The posting indicates possible usage related to this rezoning would be a
Racetrack, music, amphitheater, venues. This proposed rezoning and usage seems problematic to the surrounding area. My concerns being noise and light pollution as well as traffic problems and congestion.

Remember the citizen uproar of a previous like venue of the Polaris amphitheater. I see this proposed rezoning and usage to have history repeat itself with the same problems.

Thank you for considering my concerns. I am not against change and progress. However, I hope good decisions will be made for our community about this rezoning and usage.

Sincerely,
Patricia L Russell
