Hello
I want to speak about the planned development in our area . A racetrack, a music amphitheater, and whatever else planned is not appropriate for our community. We have lived in the area since 1978 . Please reconsider destroying our neighborhood.
Route 42 is already a death trap. Accidents weekly frequently. Thousands more coming will make it worse. What about the noise?? Once it's built you won't be able to control the noise . Nothing is done about the quarry's noise, air pollution, blasting . The trucks with their rumbling, dirt , tearing up the local roads . No one addresses those issues so why would we think this development would better.
This would affect Wesleyan Woods, Stratford area, Bunty Station , the new homes coming to Sawmill, Sectionline rd , all of the new developments along Pittsburgh and Sawmill. Who would want to put a business there or buy a home.
I please ask you to reconsider this development. It will not make our community better!
Cindy Niles
3062 S. Sectionline Rd
