Delaware City Council
1 S. Sandusky Street
Delaware, OH 43015

Dear Members of the Delaware City Council,

It has been brought to my attention that a neighbor on our street, at 25 E. Lincoln Ave., is seeking a designated handicap parking space in front of their home. I am writing to express my concern about this accommodation. The resident making this request has a driveway beside their house. By having a driveway beside their house on their own property, no such space on the public street should be designated for their handicap use when they already have a closer and more accessible location to park.

Furthermore, this resident encroaches on their neighbors by littering their cigarette trash up and down the sidewalks and streets, piling junk all around their home and generally not maintaining a clean and respectful space. If a handicap space is designated for this resident on the public street, they will certainly further crowd and litter the neighborhood even more than what already is left uncontrolled.

I respectfully request that the Council consider the fact that this resident already has a driveway they do not utilize which negates the need for public space to be designated for the sole use.

Thank you for your time, attention, and service to our community. I would welcome the opportunity to speak further about this and am happy to be contacted at your convenience.

Sincerely,
Melissa Stroupe
