[You don't often get email from sanda91416@gmail.com. Learn why this is important at https://aka.ms/LearnAboutSenderIdentification]

My household lives on dogwood, we have 3 cars and work schedules that would not allow for someone to park in our garage. We have to utilize the street parking. We are very upset by this proposed legislation and don't understand why making parking in certain places illegal instead of just moving the bus stop. This is also an issue if someone holds a party or even for holidays. Are you really saying we can't have family over for Christmas? Can you see how this is a slippery slope and the clear option is to move the bus stop?

I hope you can understand why this is a troubling call and even parking on one half of the street will become far too competitive.

Thank you for your time.
