Subject: Connaught Place Extension

You don't often get email from glfranklin1248@gmail.com. Learn why this is important

To whom it may concern,

I'm a resident at 1531 Connaught Place in Delaware and I'm writing about the possible extension of our road to Troy Rd. I've seen plans that show Connaught Place remaining a stub. It is my hope that this is the permanent plan for Connaught Place. We have seen what happens in Delaware when small subdivision roads extend to bigger roads with the massive increase of traffic on Park Vista Drive.

Additionally, any extension of Connaught would require significant destruction of wooded land. I know Delaware prides itself on being recognized as a Tree City by the Arbor Day Foundation, so it's hard to imagine such destruction would be approved, much less encouraged by the city.

And finally, the destruction of wooded land would be in very close proximity to the home of our nation's symbol of freedom, the majestic bald eagle. A nest on the Northeast corner of the woods is home to a pair who can often be seen soaring above the northern part of Delaware.

I am thankful the city of Delaware takes seriously the preservation of its surrounding nature and wildlife. Thank you for not approving the extension of our peaceful and quiet road, Connaught Place.

Sincerely,

Gabe Franklin
